About Us

One-Stop Global Sports Solution Service

Zero Complaints

We have served more than 1,000 international and domestic top sports events including 6 Olympic Games and 3 Youth Olympic Games, with "Zero Complaints".

Zero Breakdowns

As the world's top event service provider, We take high product quality seriously and will settle for nothing less than equipment "Zero Breakdown".

Zero Faults

With "Zero Failure" service level and the value pursuit of "no small matters in game" in mind, we have built the world's leading sports brand.

Company Info

Certifications

As a world-famous sports equipment manufacturer and seller, Taishan Sports is now leading China's sports industry. It has successfully served multiple major sports events, such as Olympic Games, Youth Olympic Games, Asian Games, FISU World University Games, and National Games, using its pioneering CD2S (Consult, Design, Supply, and Service) service model for major sports events. Credited as "an Olympic miracle" by the former IOC president Jacques Rogge, Taishan Sports' high standard service with "Zero Faults, Zero Breakdowns, Zero Complaints" has made itself a proud national brand.

Entitled as National Sports Goods Engineering Technology Research Center, National Industrial Design Center, National Enterprise Technology Center, and Postdoctoral R&D Station, Taishan Sports is fully capable of conducting R&D of and testing on national level sports goods. With nearly 300 patents in hand, it has led and participated in setting over 60 domestic and international sports industry standards. More than 100 of its products have been certified by FIG, IJF, WT, UWW, WA, and IWUF, and its XPE multifunctional sports mats are listed on the China Torch Program. With all of its competitive gymnastic equipment certified by FIG, Taishan Sports has unprecedentedly adopted carbon fiber composite in production. At the same time, it continues to popularize gymnastic equipment and has come up with products for children and the elderly, creating "Taishan quality shared around the globe". Meanwhile, Taishan Sports is always insisting on continuous technological innovation and material upgrading in other fields.

FLF300 (A)

High-grade Competition Starting Block

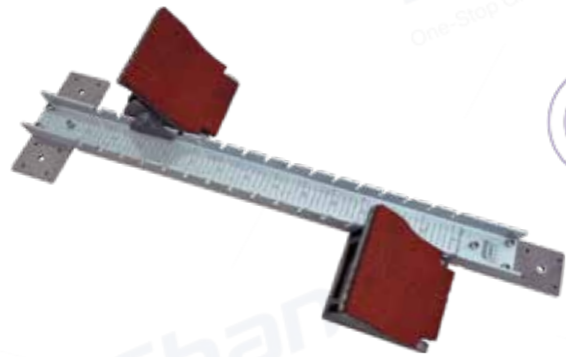

1. Specification: 900mm×100mm×6mm
2. Weight: 7kg
3. Color: Silver
4. Material: Aluminum alloy
5. Performance: Use for competitions

FLF300 (B)

High-grade Competition Starting Block

1. Specification: 900mm×80mm×6mm
2. Weight: 6kg
3. Color: Silver
4. Material: Aluminum alloy
5. Performance: Use for competitions

FLF300 (C)
High-grade Competition Starting Block

1. Specification: 900mm×100mm×6mm
2. Weight: 6.85kg
3. Color: Silver
4. Material: Aluminum alloy
5. Performance: Use for competitions

FLF300 (D)
High-grade Competition Starting Block

1. Specification: 900mm×80mm×6mm
2. Weight: 5.85kg
3. Color: Silver
4. Material: Aluminum alloy
5. Performance: Use for competitions

Starting Block Frame (cart)

- Model: TQ1121
1. Specification: 1455mm×600mm×1538mm
 2. Weight: About 38kg
 3. Color: Peach pink
 4. Material: Premium welded steel tube
 5. Performance: For storing and transporting starting blocks.

Competition Hurdle

- Model: FLT100 (TQ1118)
1. Specification: 1067mm, 991mm, 914mm, 838mm, 762mm
 2. Weight: About 13.5kg
 3. Color: red and white
 4. Material: The square tubes and welded vertical tubes are made of steel, while the hurdle boards are made of plastic.
 5. Performance: The height can be automatically adjusted. Suitable for domestic and international events. Can be used indoor and outdoor.

Training Hurdle (w/o counterweight)

- Model: TQ2114B
1. Specification: 1067mm, 991mm, 914mm, 838mm, 762mm
 2. Weight: About 8.5kg
 3. Color: red and white
 4. Material: The square tubes and welded vertical tubes are made of steel, while the hurdle boards are made of plastic.
 5. Performance: For training

Hurdle Board

- Model: TQ1118.02
1. Specification: 1198×70×20mm
 2. Weight: About 0.5kg
 3. Color: white
 4. Material: Plastic
 5. Performance: Used on hurdle

Detachable Training Hurdle

- Model: TQW0849
1. Detacheable structure
 2. Adjustable to 5 heights from 762mm to 1067mm
 3. The hurdle legs are 60×40×2mm square tubes and 700mm long in white paint.
 4. The bottom bar is 50×25×2mm square tube and 1040mm long in white paint.
 5. The inner uprights are Ø28×2 steel tubes and 580mm long in white paint.
 6. The outer uprights are Ø32×1.5 steel tubes and 570mm long in blue paint.
 7. The hurdle beam is Ø28×1 stainless steel tube and coated in blue and black foam tube.
 8. The uprights and the beam are connected through premium molded plastic parts.

Hurdle Cart

- Model: TQ2112
1. Specification: 1513mm×1078mm×965mm
 2. Weight: About 48kg
 3. Color: Peach pink
 4. Material: Premium welded steel tube
 5. Performance: Suitable for domestic and international events and can save time and labor during transporting hurdles.

3000m Steeplechase Barrier (mobile)

- Model: FLT200
1. Specification: adjustable heights, 762/838/914mm
 2. Weight: About 85kg
 3. Color: Peach pink, black, and white
 4. Material: Premium welded steel tubes and pine
 5. Performance: Can be used for steeplechase and decathlon.
 6. Note: Includes 5m steeplechase barrier (TQ2109)×1 and 3.94m steeplechase barrier (TQ2110)×3. Does not include water pit barrier.

Steeplechase Barrier (embedded)

- Model: FLF210 (TQ2111A)
1. Specification: 3660mm×127mm×(762/838/914)mm
 2. Weight: About 60kg
 3. Color: Peach pink, black, and white
 4. Material: Premium welded steel tubes and pine
 5. Performance: Can be used for steeplechase and decathlon.
 6. Note: Normally used together with 3000m steeplechase barrier.

Hurdle Ruler

- Model: JS15
1. Specification: 1200mm
 2. Weight: 0.6kg
 3. Color: Silver gray
 4. Material: Stainless Steel
 5. Performance: For measuring

Brass Bell

- Model: PAI121
1. Specification: 200mm×120mm
 2. Weight: 6kg
 3. Color: Brassy yellow
 4. Material: Brass
 5. Performance: For indicating

Relay Baton

- Model: FLT350
1. Specification: Length 280mm-300mm, diameter 40mm±2mm
 2. Weight: 0.05kg
 3. Color: Red, black, yellow, blue, white, purple, gray, green.
 4. Material: Aluminum alloy
 5. Performance: For competitions

Lane Marker I

- Model: BZH07
1. Specification: 460mm
 2. Weight: 3.5kg
 3. Color: White or red
 4. Material: Fiberglass
 5. Performance: For marking

Lane Marker II

- Model: BZH08
1. Specification: 470mm
 2. Weight: 3.5kg
 3. Color: White
 4. Material: Fiberglass
 5. Performance: For marking

Lane Marker III

- Model: BZH081
1. Specification: 420mm
 2. Weight: 1.8kg
 3. Color: White
 4. Material: Fiberglass
 5. Performance: For marking

Curve Marker

- Model: BZH02
1. Specification: 290mm
 2. Weight: 0.4 kg
 3. Color: Orange
 4. Material: Plastic
 5. Performance: For warning

Breakline Marker

- Model: TQ1154
1. Specification: 50mm×50mm×130mm
 2. Weight: about 0.5 kg
 3. Color: Yellow (to differentiate with track color)
 4. Material: Wood
 5. Performance: Small and easy to fix. For indicating athletes to breakline.

Starter's Stand

- Model: TQ2113
1. Specification: 877mm × (1260-1543)mm × (2567-3250)mm
 2. Weight: about 50kg
 3. Color: Peach pink
 4. Material: Steel frame, stainless steel arm, and fiberglass smoke blocker.
 5. Performance: For judge to signal the star; durable and anti-corrosion.

Starter's Stand

- Model: TQ1146A
1. Specification: 739mm×777mm×1300mm
 2. Color: Peach pink
 3. Material: Aluminum alloy
 4. Performance: For judge to signal the star; durable and anti-corrosion

Finish Line Pole

- Model: TQ1127A
1. Specification: φ250mm×1400mm
 2. Weight: about 7.6kg
 3. Color: White
 4. Material: Premium welded steel tubes.
 5. Performance: Durable and easy to set up. For fixing the red silk finish line ribbon.

Lap Counter

- Model: TQ2131
1. Specification: 1525×606×606mm
 2. Weight: about 25kg
 3. Color: Peach pink
 4. Material: Premium welded steel tube.
 5. Performance: Can attach brass beel. Numbers are from 0 to 9.

Starter Pistol (2 bullets)

- Model: FL131
1. Specification: 105×10cm
 2. Weight: 215kg
 3. Color: beige
 4. Material: ABS plastic
 5. Performance: For starting

Portable Speaker

- Model: QT13
1. Specification: 400mm×160mm
 2. Weight: 0.8kg
 3. Color: White
 4. Material: ABS plastic
 5. Performance: For referees

Shoe Spike Measurer

- Model: JS231
1. Specification: 80×80mm
 2. Weight: 0.38kg
 3. Color: Silver Gray
 4. Material: Stainless Steel
 5. Performance: For measuring shoe spikes

Lane Race Foul Marker

- Model: BZH09
1. Specification: 105mm×145mm
 2. Weight: 0.015kg
 3. Color: Red and black, yellow and black, black, red
 4. Material: PVC
 5. Performance: For referees

Race Walking Faul Indicator

- Model: PAI10
1. Specification: φ 120mm, handle length 160mm
 2. Weight: 0.3kg
 3. Color: Yellow, red
 4. Material: Acrylic circle, crystal handle
 5. Performance: For judges

Barrier Cart

- Model: TQ1108
1. Specification: 1024mm×823mm×725mm
 2. Weight: 15kg
 3. Color: Peach pink
 4. Material: Premium welded steel tube.
 5. Performance: Its small size makes it easy to transport barriers.

Wind Indicator Flag

- Model: TQ1132
1. Specification: 330mm×240mm×1500mm
 2. Weight: about 5kg
 3. Color: Peach pink
 4. Material: Premium welded steel tubes, silk.
 5. Performance: Easy to set up. Can indicate wind direction.

Field Curb

- Model: TQ1114
1. Specification: L 400m, H 50mm, W 55mm
 2. Weight: about 435kg
 3. Color: Silver gray
 4. Material: Aluminum alloy.
 5. Performance: Interlocking installation, customized length.

Field Curb

- Model: FLT400
1. Specification: L 400m, H 50mm, W 55mm
 2. Weight: about 225kg
 3. Color: Silver gray
 4. Material: Aluminum alloy.
 5. Performance: Interlocking installation, customized length.

Curve Indicating Flag

- Model: TQ1134
1. Specification: 281mm×240mm×450mm
 2. Weight: about 3kg
 3. Color: Peach pink
 4. Material: Premium welded steel tubes and silk
 5. Performance: Installed at the beginning of the curve

Judge Hand Flag

- Model: TQZ03
1. Specification: Flag 450mm×350mm, stick 500mm
 2. Weight: 0.4kg
 3. Color: Black handle; flag can be red, yellow, green, white, blue.
 4. Material: Plastic handle, PPR stick, silk flag
 5. Performance: For judges

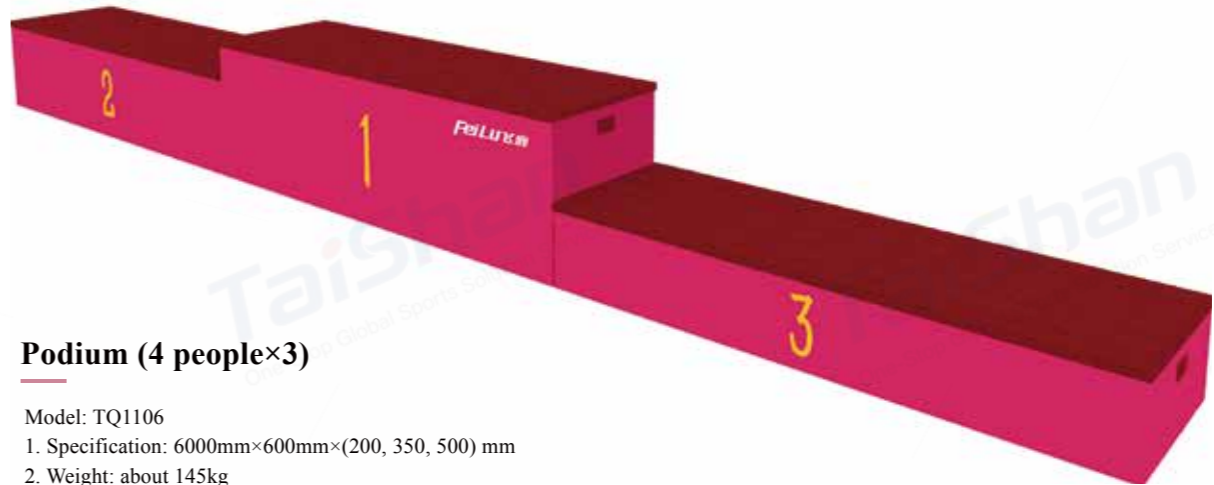

Starter's Sleeve

- Model: FL15
1. Specification: φ240mm×350mm
 2. Weight: about 5kg
 3. Color: Orange
 4. Material: Silk
 5. Performance: For starter

Cut-in Signal Flag

- Model: TQ1136
1. Specification: 1500mm
 2. Weight: about 5kg
 3. Color: Red, white
 4. Material: Premium welded steel tubes and silk
 5. Performance: For signalling cut-in ahead

Podium (4 people×3)

- Model: TQ1106
1. Specification: 6000mm×600mm×(200, 350, 500) mm
 2. Weight: about 145kg
 3. Color: Peach pink
 4. Material: Steel frame, wooden board, and carpet.
 5. Performance: Three levels; for award ceremony; durable.

Race Walking Foul Record Display Board

- Model: PAI11
1. Specification: 1000mm×2000mm
 2. Weight: 25kg
 3. Color: Adjustable black frame with white board.
 4. Material: Square tube with paint for the frame; galvanized white board
 5. Performance: For recording results

Spraying Cooling System

- Model: TQ1164
1. Specification: Can cover 10m×2.5m of track
 2. Performance: For marathon, race walking, and running events.

Folding Massage Bed

- Model: TQW0376
1. Specification: 1860×600×(480-720)mm, pillow length 270mm, armrest width 100mm.
 2. Weight: 16kg
 3. Color: Black bed top, silver bed frame
 4. Material: Eco-friendly PVC leather, high density foam, and sturdy aluminum alloy bed frame for durability.
 5. Performance: For massaging.

Athlete Bench

- Model: TQ2135
1. Specification: 2700mm×1817mm×2187mm
 2. Weight: about 160kg
 3. Color: Peach pink, blue, white
 4. Material: Aluminum alloy, shade
 5. Performance: For track and field athletes and coaches to rest, can block rain and sun and store things.

Folding Canopy

- Model: TQW0367/1
1. Specification: 3000mm×3000mm×2500mm
 2. Color: Blue, white
 3. Material: Steel frame, PVC canopy.
 4. Performance: For blocking rain and sun.

Steel Bench

- Model: TY-011L
1. Specification: 2000mm×470mm×420mm
 2. Weight: about 25kg
 3. Color: Green
 4. Material: Steel
 5. Performance: For track and field athletes and coaches to rest.

Super Sopper

- Model: CHE10
1. Specification: Roller φ600mm
 2. Weight: 43kg
 3. Color: White
 4. Material: Steel frame, with large size roller.
 5. Performance: For removing water on the field.

Judge Stand

- Model: TQ2128A
- 1. Specification: 27 seats with canopy
 - 2. Weight: about 952kg
 - 3. Color: White
 - 4. Material: Steel frame and plastic seats
 - 5. Performance: Used on the field

Prefabricated Rubber Running Track

- Model: TQWO884
1. Product Features:
- Eco-friendly
 - Easy to maintain
 - Easy to install
 - Highly wear-resistant
 - Highly compression-resistant
 - Highly impact-resistant
 - Safe
 - Outstanding performance
2. Color: Multiple colors
3. Base material: Concrete or asphalt
4. Thickness: 9-13mm
5. Certification: WA

Sandwich(Multi-layered) Rubber Running Track

- Model: TQWO885
1. Product Features:
- Eco-friendly
 - Economical
 - Easy to maintain
 - Easy to install
 - Highly wear-resistant
 - Highly compression-resistant
 - Highly impact-resistant
 - Safe
 - Weatherproof
 - Outstanding performance
2. Color: Multiple colors
3. Base material: Concrete or asphalt
4. Thickness: 13mm
5. Certification: WA

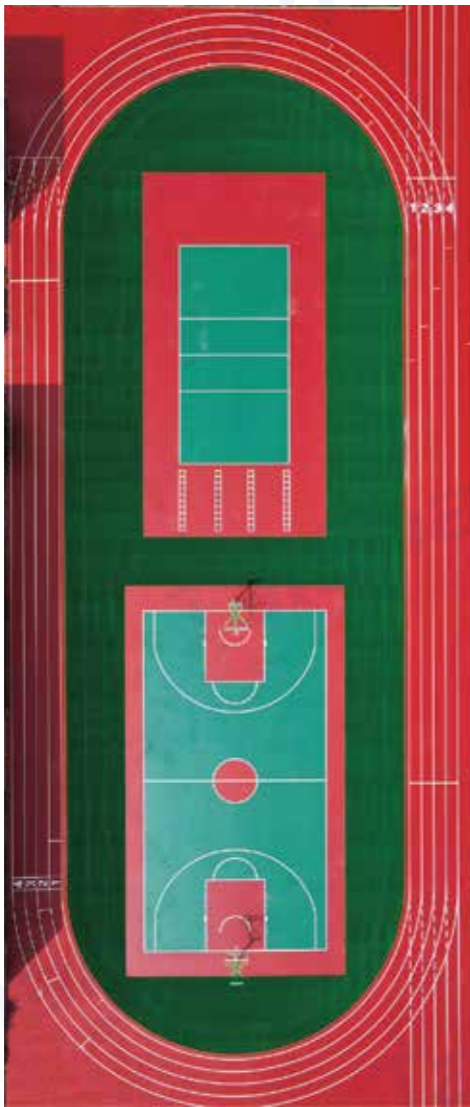

Sunshade

- Model: TQW0367
- 1. Specification: φ2700mm
 - 2. Color: Green
 - 3. Material: Aluminum alloy skeleton
 - 4. Performance: For blocking rain and sun

Facilities: All types of athletic field for competition and training, including those at school facilities from elementary schools to colleges, and sport stadiums

PROJECT CASE

Judge Stand

- Model: TL12
1. Specification: Retractable with 24 seats
 2. Weight: 300kg
 3. Color: White, blue
 4. Material: Steel frame and plastic seats.
 5. Performance:
Stretching Dimensions: 5400mm(L)×1700mm(W)×2900mm(H), Shrinking Dimensions: 2700mm(L)×1700mm(W) ×2900mm(H).
Step size: 250 mm. The judges' platform has 8 steps, with 3 seats on each step. The bottom frame of the judges' platform is made by splicing 50×100×3 mm rectangular tubes and 40×60×3 mm square tubes, and the bottom moving wheels are ø150 mm.

High Jump Landing Mat Base Frame

- Model: TQ1125A
- Specification: 3800mm×5800mm×100mm
- Color: metal color
- Material: aluminum alloy
- Performance: This platform is to be used together with the 6000mm×4150mm mat. It is weather proof and breathable, and can prolong the service life of the mat.

- Model: TQ1125A/1
- Specification: 2800mm×4800mm×100mm
- Color: metal color
- Material: aluminum alloy
- Performance: This platform is to be used together with the 5000mm×3150mm mat. It is weather proof and breathable, and can prolong the service life of the mat.

Name	Model	Specification(mm)	Material
High Jump Mesh Cover	TQ2559.01	3150×5000×100	Soft mesh and extra soft foam
High Jump Mesh Cover	TQ1572.01	4150×6000×100	Soft mesh and extra soft foam

High Jump Mat Cover with Steel Frame

- Model: TQ2104B
- Specification: for 6000mm×4150mm mat
- Weight: about 800kg
- Color: blue
- Material: high quality welded steel tubes
- Performance: This mat accessory can cover and protect the mat. Casters on the bottom make it easy to move.

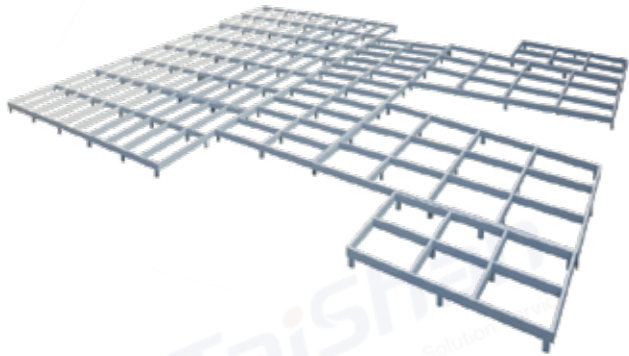

Mat Cover with Steel Frame (for 4*6)

- Model: TQ2104A
- Specification: for 6000mm×4150mm mat
- Weight: about 300kg
- Color: blue cover and silver white frame
- Material: aluminum alloy frame
- Performance: This mat accessory can cover and protect the mat. Casters on the bottom make it easy to move.

Pole Vault Mats

Model	Specification (mm)	Color	Material	Performance	Certification
FLF520	9000×7000×800	Blue and Pink (Customizable)	High-quality PVC mesh, high-quality PVC woven fabric, super soft sponge, XPE	For pole vault competition and training	
TQ1593	6600×8200×800				

Pole Vault Platform

- Model: TQ1151A
- Specification: 8800mm×6800mm×100mm
- Color: metal color
- Material: aluminum alloy
- Performance: This platform is to be used together with the 9000mm×7000mm mat. It is weather proof and breathable, and can prolong the service life of the mat.

- Model: TQ1151A/1
- Specification: 8000mm×6400mm×100mm
- Color: metal color
- Material: aluminum alloy
- Performance: This platform is to be used together with the 8200mm×6600mm mat. It is weather proof and breathable, and can prolong the service life of the mat.

Name	Model	Specification(mm)	Material
Pole Vault Mesh Cover	TQ1593.10	6600×8200×100	Soft mesh and extra soft foam
Pole Vault Mesh Cover	TQ1594.08	9000×7000×100	Soft mesh and extra soft foam

Pole Vault Mat Cover with Steel Frame

- Model: TQ2118A
- Specification: for 9000mm×7000mm mat
- Weight: about 1017kg
- Color: blue cover and silver white frame
- Material: aluminum alloy frame
- Performance: This mat accessory can cover and protect the mat. Casters on the bottom make it easy to move.

Mat Cover with Steel Frame

- Model: TQW22000013
- Specification: for 6000mm×4150mm foam mat; 1.2mm thick side boards; 2mm thick tubes for the frame; φ150mm red casters.
- Weight: about 900kg
- Color: blue

High Jump Crossbar

- Model: FLF410 (WA approved)
- Specification: 4000mm
- Weight: 2kg
- Color: red and yellow
- Material: fiberglass
- Performance: for training or competition

- Model: FLF410 (A)
- Specification: 4000mm
- Weight: 2kg
- Color: red and yellow
- Material: carbonfiber
- Performance: for training or competition

High Jump Standard

- Model: TQ1140/1 (FLF400)
- Specification: adjustable height from 600mm to 2600mm with 2000mm adjustment range
- Weight: 25kg
- Color: gold
- Material: aluminum alloy upright
- Performance: for training or competition

Pole Vault Crossbar

- Model: FLF510 (WA approved)
- Specification: 4500mm
- Weight: 2.23kg
- Color: red and yellow
- Material: fiberglass
- Performance: for training or competition

- Model: FLF510 (A)
- Specification: 4500mm
- Weight: 2.23kg
- Color: red and yellow
- Material: carbonfiber
- Performance: for training or competition

Electric High Jump Standard (with mobile base)

- Model: TQ1158A (FLF500E)
- Specification: adjustable height from 1800mm to 6260mm with 4460mm adjustment range
- Weight: about 536kg
- Color: Peach pink / silver grey
- Material: aluminum alloy upright, steel base
- Performance: This product adopts advanced PLC computer control system. The transmission system adopts imported high-precision transmission rail. The lifting precision can be accurate to 0.5mm. The frame distance and lifting height can be carried out at the same time, so that the game is more convenient and more time-saving. It uses 220V power.

Elastic Crossbar

- Model: TQ2132
- Specification: φ30mm×4000mm
- Color: white and black
- Material: soft material
- Performance: can effectively avoid injury in high jump training

Manual Pole Vault Standard

- Model: FLF500
- Specification: adjustable height from 1800mm to 6500mm with 4700mm adjustment range.
- Weight: 200kg
- Color: white upright and blue base.
- Material: aluminum alloy upright, steel base.
- Performance: for manually adjusting height in competition.

Manual Pole Vault Standard (digital)

- Model: TQ1163
- Specification: 1800mm—6500mm
- Weight: 220kg
- Color: Peach pink / silver grey
- Material: aluminum alloy upright, steel base.
- Performance: digital; for manually adjusting height in competition.

Type I High Jump Standard

- Model: TQW22000002
- Aluminum alloy upright, steel base.
- The upright brushed and anodized with grey.
- The fixed upright made of 1450×60×45mm and 1.5mm thick square tube.
- The retractable upright made of 1380×40×45mm and 1.5mm thick square tube.
- The upright end plugs made of 4mm thick aluminum sheet.
- The base made of 3mm thick iron plate.
- The base adjusting screw made of φ50 aluminum shell, POM, and stainless steel.
- The base counterweight is barbell plates.

Pole Vault Measuring Device

- Model: CHG191
- Specification: 2000mm—6400mm
- Weight: 4kg
- Color: silver grey
- Material: aluminum alloy
- Performance: for measuring height

High Jump Measuring Device

- Model: TG17
- Specification: 1200mm—2500mm
- Weight: 2kg
- Color: yellow and silver grey
- Material: aluminum alloy
- Performance: for measuring height

Crossbar Lifting Fork

- Model: CHG18
- Specification: length adjustment range 5000mm
- Weight: 3kg
- Color: silver grey
- Material: aluminum alloy
- Performance: for lifting crossbar

Crossbar Cart

- Model: TQ1109
- Specification: 1968mm×620mm×1409mm
- Weight: about 34kg
- Color: Peach pink
- Material: high quality welded steel tubes
- Performance: durable, light, and mobile; can be used in competition for transporting crossbars

Vaulting Pole Cart

- Model: TQ1128A
- Specification: 718mm×604mm×1002mm
- Weight: 15kg
- Color: Peach pink
- Material: high quality welded steel tubes
- Performance: durable, light, and mobile; can be used in competition for placing vaulting poles

Distance Indicator

- Model: TQ2101
- Specification: 4000mm×508mm×555mm
- Weight: 30kg
- Color: Peach pink
- Material: steel frame
- Performance: for indicating long jump distance

Sand Pit Rake

- Model: QT01
- Specification: 2500mm
- Weight: 5kg
- Color: dark red
- Material: aluminum alloy
- Performance: for grooming and leveling sand pit

Chalk Stand

- Model: TQW0049
- Specification: 900mm
- Weight: 17kg
- Color: white
- Material: painted iron base, fiberglass box
- Performance: for containing chalk

Tape Measure

Model	Name	Weight	Color	Material
CL11	100m steel measuring tape	1.75kg	Yellow	Steel
CL12	50m steel measuring tape	1.5kg		
CL13	30m steel measuring tape	1kg		
CL15	50m fiber measuring tape	1kg	Silver grey	Fiber
CL16	30m fiber measuring tape	0.5kg		

Take-Off Board Box (with lid)

- Model: TQ1144/2
- Specification: used with 340mm take-off board
- Weight: 34kg
- Color: silver grey
- Material: galvanized iron
- Performance: for long jump

Take-Off Board Box (with lid)

- Model: TQ1144
- Specification: used with 300mm take-off board
- Weight: 31kg
- Color: silver grey
- Material: galvanized iron
- Performance: for long jump

Take-Off Board

- Model: FLF900 (A)
- Specification: 1220×340×100 mm
- Weight: 8kg
- Color: white
- Material: wood with paint
- Performance: for long jump

Take-Off Board

- Model: FLF900 (B)
- Specification: 1220×300×100 mm
- Weight: 7kg
- Color: red and white
- Material: wood with paint
- Performance: for long jump

Pole Vault Box

- Model: FLF530 (WA approved)
- Specification: WA standard size
- Weight: 30kg
- Color: white
- Material: stainless steel
- Performance: for training and competition

Take-Off Board Marker

- Model: TY08
- Specification: 400×330×310mm
- Weight: 1.3kg
- Color: blue and white
- Material: fiberglass
- Performance: for long jump

Line Marker

- Model: CHE12
- Specification: 33×33×75cm
- Weight: 7.8kg
- Color: red
- Material: steel tubes, large size wheels
- Performance: for marking lines

Plasticine Indicator Cart

- Model: TQ1123A
- Specification: 1534×522×1200 mm
- Color: Peach pink
- Material: steel
- Performance: durable, light, and mobile; can be used in competition for placing plasticine boards

Plasticine Board

- Model: TY05
- Specification: 1220mm×100mm×27mm
- Weight: 1kg
- Color: red
- Material: painted wood
- Performance: for long jump

Score Board

- Model: PAI09
- Specification: 1000mm×2000mm
- Weight: about 10kg
- Color: adjustable black frame, white board
- Material: painted square tubes for the base, galvanized white board
- Performance: for recording athletes' scores

Plasticine Scraper

- Model: TY06
- Color: silver grey
- Material: stainless steel
- Performance: for scraping plasticine

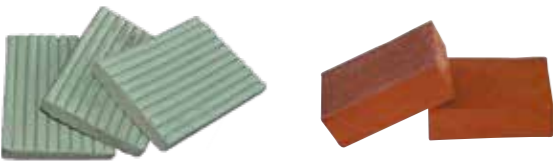

Cloth Storage Box

- Model: TQW22000005
- Specification: 68×49×40 cm

Plasticine

- Model: TY07
- Color: green, red, yellow, and blue (choose color in contract with that of the track)
- Material: eco-friendly plasticine
- Performance: for long jump

Bar Height Board

- Model: CHG20
- Specification: 1000mm×2000mm
- Weight: about 10kg
- Color: adjustable black frame, white board
- Material: painted square tubes for the base, galvanized white board
- Performance: for recording athletes' scores

Landing Spot Spike

- Model: TQ1120
- Specification: 750mm long
- Weight: about 0.5kg
- Color: Peach pink
- Material: High-quality round steel
- Performance: easy to carry and mark

Marker Flag / Record Flag

- Model: TQ1145
- Specification: φ240mm×700mm
- Weight: about 3kg
- Color: Peach pink
- Material: high quality welded steel tube, silk
- Performance: can flap in the wind to give clear marks; the base is stable.

U-Shape Nail

- Model: CHE172
- Specification: 52mm wide
- Weight: 0.005kg
- Color: silver grey
- Material: galvanized iron
- Performance: for competition

Stop Sign Cone

- Model: BZH01
- Specification: 675mm
- Weight: 5kg
- Color: orange
- Material: plastic
- Performance: for marking

High Jump Score Board

- Model: TG18
- Specification: 1200×800 mm
- Weight: 15kg
- Color: blue base, silver grey upright
- Material: Stainless steel frame
- Performance: 750mm × 300mm × (1200 - 1800)mm, tripod base, adjustable height; manual flip sign board.

Trolley

- Model: TQ2115B
- Specification: 2075mm×1000mm×1037mm
- Weight: about 62kg
- Color: Peach pink
- Material: high quality metal
- Performance: for transporting light objects in the field.

Number Marker

- Model: TY09
- Specification: 80×80mm
- Weight: 0.1kg
- Color: multiple color options
- Material: acrylic
- Performance: for marking

Score Board (height/distance)

- Model: PA105
- Specification: 800×2000×1000 mm
- Weight: 25kg
- Color: blue main body, red and white cards, black rubber wheels
- Material: rubber wheels, steel main body, plastic cards
- Performance: for displaying score

Iron Flag

- Model: TQ1135A
- Specification: 254×128×8 mm
- Weight: about 0.5kg
- Color: Peach pink
- Material: high quality metal
- Performance: easy to carry and mark

Bamboo Slips and Slip Container for Drawing Lots

- Model: QT04
- Specification: 400×300mm
- Weight: 1kg
- Color: wooden color
- Material: bamboo
- Performance: for drawing lots

Throws

Athletics Series

Carbon Fiber Javelin

- Model: TZ1002-65
- Specification: 2200—2300mm
- Weight: 600g
- Distance Grade: 65m
- Material: Carbon Fiber

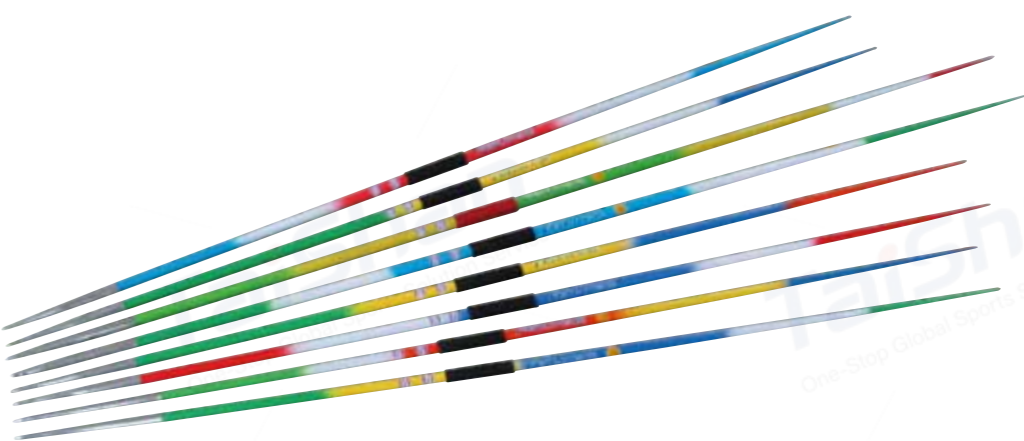

- Model: TZ1002-70
- Specification: 2200—2300mm
- Weight: 600g
- Distance Grade: 70m
- Material: Carbon Fiber

- Model: TZ1002-75
- Specification: 2200—2300mm
- Weight: 600g
- Distance Grade: 75m
- Material: Carbon Fiber

- Model: TZ1001-90
- Specification: 2600—2700mm
- Weight: 800g
- Distance Grade: 90m
- Material: Carbon Fiber

Hammer Wire

- Model: LQP19
- Specification: 960mm
- Weight: about 90kg
- Color: silver grey
- Material: spring steel
- Performance: for hammer throw

Hammer Glove

- Model: LQP22
- Weight: 0.25kg
- Color: black
- Material: sheepskin
- Performance: for hammer throw

Hammer Handle

- Model: LQP21
- Weight: about 90g
- Color: silver grey
- Material: aluminum alloy and spring steel
- Performance: for hammert hrow

Track and Field Testing Devices Combination

- Model: TQW22000001
- 1. Electronic scale: for weighing equipment.
- 2. Vernier caliper: for measuring javelin diameter and discus thickness.
- 3. Calculator: for calculating if diameter exceeds standard.
- 4. Shot measurer: for measuring shot diameter.
- 5. Discus measurer: for measuring discus.
- 6. Tape measurer: for double checking measurers.
- 7. Diameter caliper: for measuring shot diameter.
- 8. Aluminum alloy ring: for measuring shot and hammer diameter.
- 9. Gravity center tester: for testing shot and hammer gravity center.
- 10. Javelin caliper: for measuring diameters of different spots on javelin.
- 11. Javelin measurer: for measuring length of javelin's center of gravity, body, handle, and other spots.
- 12. Hammer measurer: for measuring overall length of hammer.
- 13. Weight: for calibrating electronic scale.
- 14. Track and field rules: for looking up relevant rules.

Combo Rack (with wheels)

- Model: TQ2102
- Specification: 1138×790×936 mm
- Weight: about 37kg
- Color: Peach pink
- Material: high quality welded steel tubes
- Performance: This product is designed to hold shot puts, hammers, javelins, and discuses.

Color	Peach pink		
Material	High-quality welded steel tubes		
Performance	Solid and reliable. Suitable for domestic and international events. Can easily and quickly keep and transport discus of all sizes. Saves time and labor.		

Toe Board

- Model: FLF740
- Specification: width 112mm-300mm, chord length 1210mm
- Weight: 15kg
- Color: white
- Material: painted wood
- Performance: for shot throw and hammer throw

Hammer Conversion Circle

- Model: TQW0133
- Specification: outside diameter 2500mm, inside diameter 2135mm, thickness 20mm
- Weight: about 5kg
- Color: white
- Material: fiberglass
- Performance: easy and quick interlocking assembling

Discus Throw Circle

- Model: TQ1102
- Specification: inside diameter 2500mm, thickness 80mm
- Weight: about 67kg
- Color: white
- Material: steel
- Performance: solid and reliable, suitable for all sorts of fields

Shot Put Circle

- Model: FLF920(TQ1101)
- Specification: inside diameter 2135mm, thickness 80mm
- Weight: about 53kg
- Color: white
- Material: steel
- Performance: solid and reliable, suitable for all sorts of fields

Javelin Throw Arc

- Model: TQ1160
- Specification: 5500×324×310 mm
- Color: white
- Material: steel
- Performance: pre-installed in the ground as javelin throw marker

Throwing Equipment Retriever Car

- Model: TQ2136A
- Specification: 965×527×500mm
- Weight: about 20kg
- Color: Black
- Material: The product shell is a one-time molded shell made of PVC FU
- Performance: This product adopts an advanced 2.4G frequency hopping remote control system, which does not interfere with other channels. The power system uses a 750KV/6500W brushless motor, equipped with 2 explosion-proof 12Ah power lithium batteries, and a dedicated charger can fully charge the battery within 1 hour. During use on the grass court, the speed can reach 25km/h, with a maximum load capacity of 20kg. The maximum load capacity of a single battery can operate continuously on the court for approximately 40 minutes.

Marking Strap

- Model: CHE171
- Specification: width 50mm
- Color: white
- Material: nylon
- Performance: extra thickness, sunproof, and durable.

Long Distance Field Marker

- Model: TQ2139
- Specification: 300×10×840 mm
- Color: Peach pink
- Material: steel
- Performance: for marking landing spot

Short Distance Field Marker

- Model: TQ2139/1
- Specification: 200×10×540 mm
- Color: Peach pink
- Material: steel
- Performance: for marking landing spot

Shot Put Return Channel

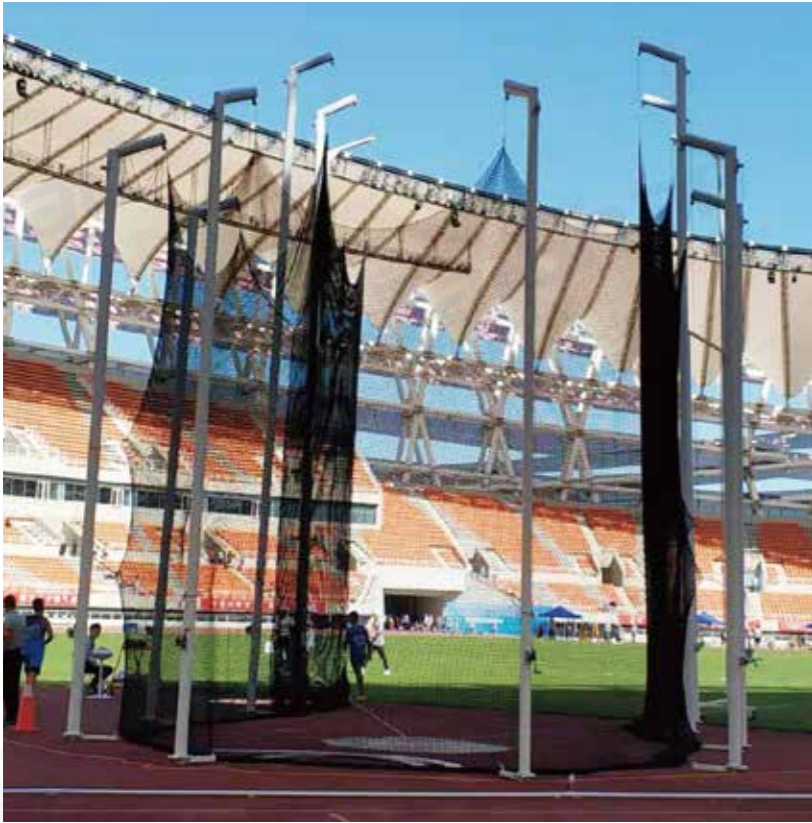

- Model: TQ1111
- Specification: 20514mm×240mm×605mm
- Weight: about 110kg
- Color: Peach pink
- Material: high quality welded steel tubes
- Performance: Solid and reliable. Suitable for domestic and international events. Easy installation. Can quickly retrieve shot puts from the landing sector.

Marking Strap Cart

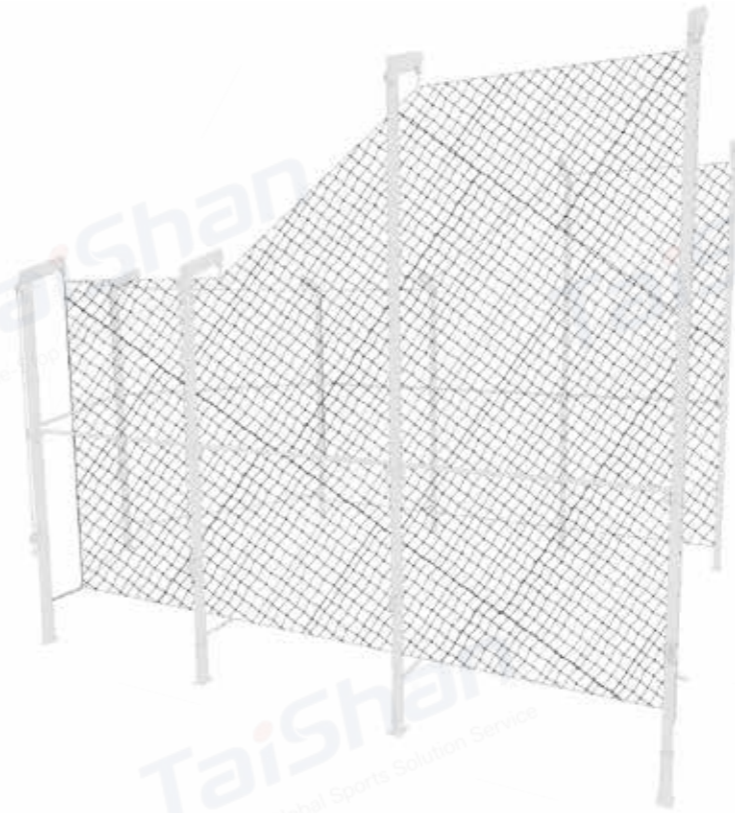

- Model: TQ1137/1
- Specification: 1435×554×895 mm
- Weight: 35kg
- Color: Peach pink
- Material: steel frame
- Performance: for laying marking straps

**Discus and Hammer Throw Cage
Ground Anchors**

- Model: TQ1117/1
- Specification: standard WA size
- Color: white
- Material: aluminum alloy
- Performance: tightly welded frame, easy installation, effectively absorbs shock from discus and hammer

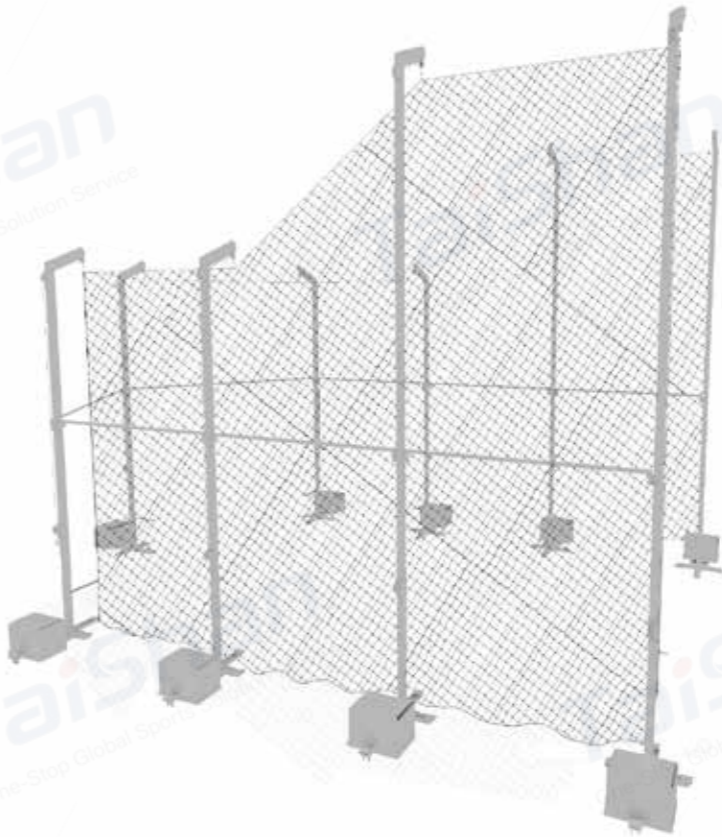

Mobile Discus Throw Cage

- Model: TQ1116A
- Specification: standard WA size
- Color: white
- Material: aluminum alloy, nylon net
- Performance: tightly welded frame, easy installation, effectively absorbs shock from discus

**Mobile Discus and Hammer
Throw Cage**

- Model: TQ1117/2
- Specification: standard WA size
- Color: white
- Material: aluminum alloy
- Performance: tightly welded frame with ground counterweights, easy installation, effectively absorbs shock from discus and hammer

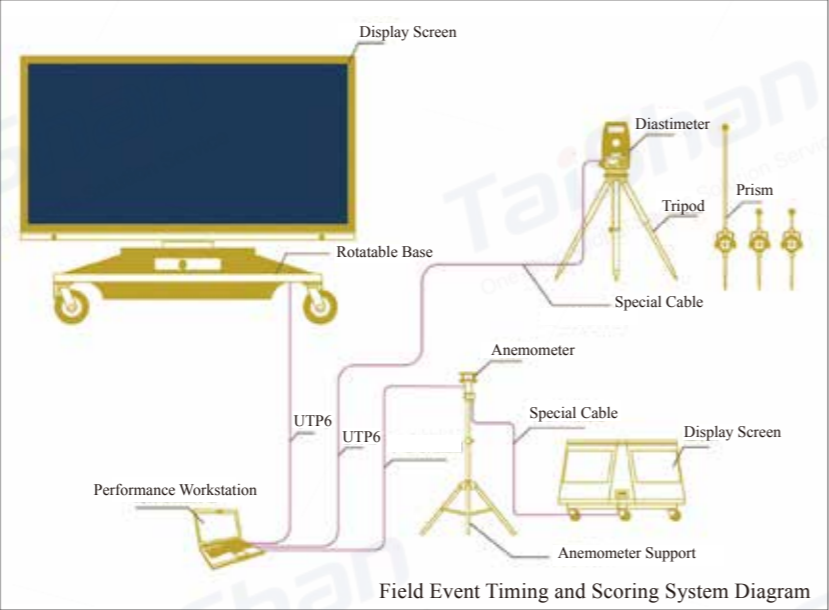

Mobile Discus Throw Cage

- Model: TQ1116A/1
- Specification: standard WA size
- Color: white
- Material: aluminum alloy, nylon net
- Performance: tightly welded frame with ground counterweights, easy installation, effectively absorbs shock from discus

Electronic Timing and Scoring

Athletics Series

Laser Distance Measuring System

- Model: TQW-J001
Specification: 200mm(L)×180mm(W)×380mm(H)
Performance:
1. Customized for measuring distance in field events (throw, jump, and vault).
 2. Synchronized data output.
 3. Accurate to <5mm.
 4. 24000 known coordinates.
 5. 24000 data collection and measuring spots.
 6. Long battery life up to 10 hours on a single charge.
 7. IP54.
 8. Measuring speed: accurate measuring 1.2s, approximate measuring 0.7s, auto-tracking 1.4s.
 9. Tripod base.
 10. Operating temperature -25°C~55°C.

HD Digital Camera

- Model: TQW-G002
Specification: 210mm×90mm×80mm
Performance:
1. For measuring distance at short distance field events, synchronized output, high accuracy.
 2. Accurate to <5mm, definition 1920×1080, 10-60fps.
 3. Encrypted results, reliable and accurate.
 4. Equipped with IF interruption device, automatic detecting program pre-installed for automatic capturing.
 5. Aluminum alloy shell, IP56.
 6. Operating voltage: DC24V or PoE.
 7. Operating temperature: -25°C~55°C.

LED Result Board

- Model: TQW-G004
Specification: 720mm×400mm×90mm
Performance:
1. Single sided high brightness PH10 single color LED display, resolution 128×64.
 2. Yellow powder painted frame with four casters. Equipped with 10m power cord and 10m data cable.
 3. Operating voltage AC220V

Double Sided Turnable LED Display

- Model: TQW-S005
Specification: 1930mm×790mm×1340mm,
Display size: 1930mm×970mm;
Performance:
1. Double sided turnable outdoor PH10SMD high brightness LED display.
 2. 15°per side, IP65 waterproof.
 3. Equipped with wired and wireless turn controller. Waterproof strip. Ventilation device on the turning part to maintain the temperature inside the display.
 4. Two hooking points on each screen for towing by trailer. Four fixing straps are needed when moving the display to protect the turning axle and the gears.
 5. Input AC160V--AC240V 50HZ

Triple Sided Ground Countdown Display

- Model: TQW-S003
- Performance:
- 1. Score and countdown display.
 - 2. Synchronized timing; mobile; metal frame.
 - 3. Longest countdown interval 9'59", set by controller.

Countdown Controller

- Model: TQW-Y007
- Performance:
- 1. Controls minutes and seconds on the countdown display.
 - 2. Longest countdown interval 9'59". Any countdown time can be set within the longest countdown interval.

Data Collector

- Model: TQW-S008
- Performance:
- Connected with IF interruption device and LED score display.

Positioning Mark

- Model: TQW-J006
- 1. Specification: 100mm×100mm×45mm
 - 2. Performance: Metal marks, 12 pcs per set. Help increase automatic positioning accuracy.

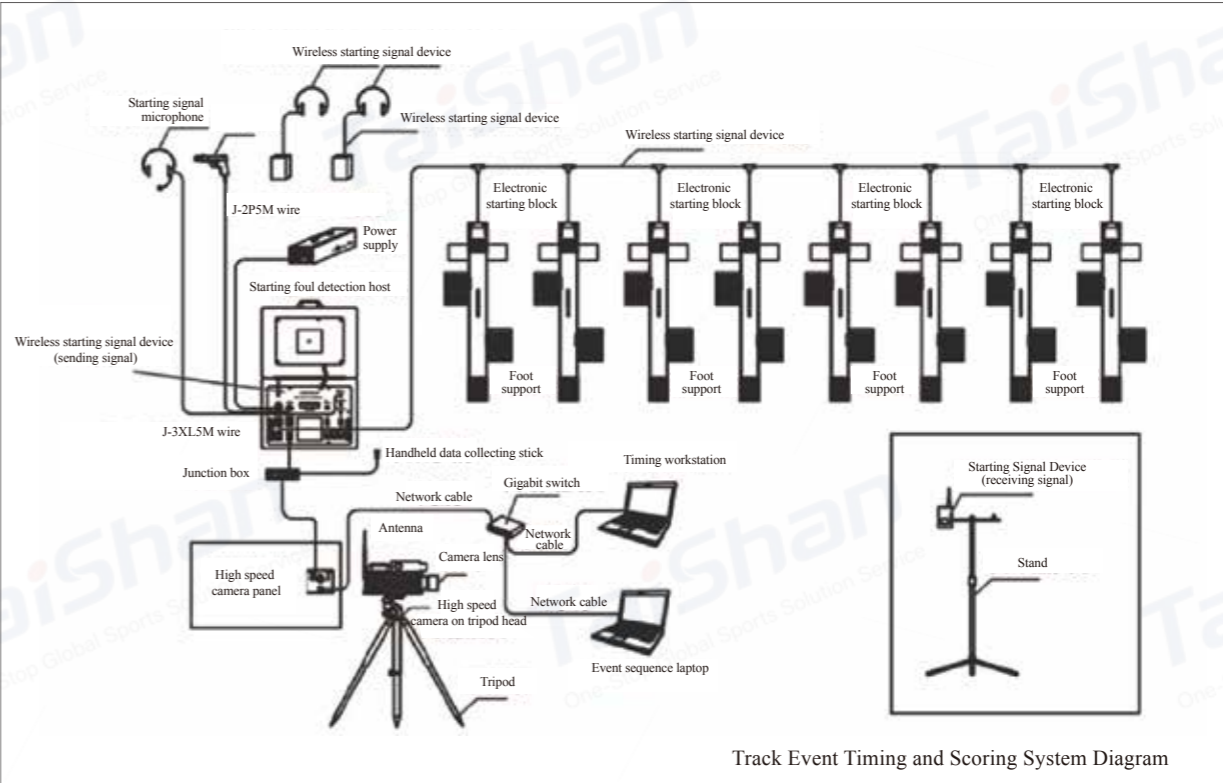

Image Distance Measuring
(Standing Long Jump Software Screenshot)

Image Distance Measuring
(Medicine Ball Trajectory)

Track and Field Event Timing and Scoring System-Track Event

Timing Controller

- Model: TQW-J010
- Performance:
- 1. Works together with high speed camera to receive start signal.
 - 2. Timing start hardware port, multiple timing starts, wireless timing start.
 - 3. Control image capturing through keypad or buttons.
 - 4. RS232 connection to PC for manual start signal.

Camera Connection Module

- Model: TQW-X011
- Specification: 160mm×55mm×50mm; cable length: 5m
- Performance:
- 1. Wired signal module, live clock module, track event LED display module, power supply module, image capturing module.
 - 2. Aluminum alloy hub, AUX port for high speed camera.

Finish Line High Speed Camera

- Model: TQW-X009
Specification: 300mm×160mm×120mm
Performance:
- 1. Color high speed linear array CCD camera, accurate to 1/5000 second; minimum image capturing interval 1/14000 second.
 - 2. Finish line image capturing width 14μm.
 - 3. Anti-glare, automatic exposure adjustment, brightness on the finish line ≥ 500lux.
 - 4. Live image preview system and right angle endoscope for quick search for the finish line, comprehensive information displayed on the screen.
 - 5. Gyro and gradienter laser of the camera for quick and easy setup.
 - 6. RJ45/GIGE gigabit network data interface, standard TCP/IP.
 - 7. Dual frequency wireless handheld communication protocol for wirless or wired start signal.
 - 8. Finish line device working voltage: 220V±10%, power consumption: 1000w.
 - 9. Operating temperature: 10°C~35°C.

Tripod Head

- Model: TQW-S012
1. Specification: 190mm×150mm×130mm
2. Performance: three dimentional adjustment, detachable from tripod (horizontal micro adjustment, finishline focus).

Tripod

- Model: TQW-S013
Specification: height 1000mm
Performance:
- 1. Professional aluminum alloy tripod with maximum height 2300mm.
 - 2. Equipped with case and shoulder strap.

Electronic Starting Block

- Model: TQW-D017
Performance:
- 1. For standard synthetic track, made of steel, with stabilizing stud.
 - 2. International standard size, adjustable foot support positions, starting foul sensor, accurate to 2000 times per second with sensing error1ms and minimum sensing weight 20kg.
 - 3. IAAF approved, with handles, 45w amplifier, data port on the back side.

IF Interruption Device

- Model: TQW-H014
Performance:
- 1. Mechanism: IF interruption, maximum working distance≥15m, signal transmission distance≥500m.
 - 2. Control: wired hanheld stick (for middle and long distance running).
 - 3. Operating voltage: DC12V, charger: DC14.4V 0.5A.
 - 4. Power cord: 1.2m DC cord with spring.

Starting Signal Microphone

- Model:TQW-F029
Performance: For giving starting signal, can be connected to electronic starter pistol, head-mounted.

Orientation Antenna

Model: TQW-D016
Specification: 300mm×300mm×20mm
Performance:
1. PVC material, effective signal receiving width 1-12m
2. Data receiving angle 60°, can work in pair
3. Accurate to 0.01s

Mobile Starting Foul Detection Host

Model: TQW-Y018
Performance:
1. Starting foul detection host, wire connection to starting block, with starting foul light, starting reaction time display, and embedded printer port.
2. Can be used with wireless and wired start signal transmitter, and electronic Starter Pistol.
3. Built-in thermal printer, measures and prints the athlete's start reaction time, pedal pressure curve, foul time in the late arbitration of track events. Can also be used for athletes' starting technical testing and analysis.

Ultrasonic Wind Gauge

Model: TQW-C015
Specification: 200mm×200mm×300mm
Performance:
1. Ultrasonic wind testing using industrial testing module, wireless data transmission, triple sided wind velocity display.
2. Accurate to 0.1m/s, mannual and automatic track wind velocity and direction testing with synchronized display.
3. Installation: in the same direction of the wind gauge arrow.
4. Communication: wire and wireless.
5. Operating voltage: AC220V/DC24V.
6. Operating temperature: -15°C~65°C.

Starting Foul Detection Host

Model: TQW-Q019
Specification: 400mm×350mm×170mm
Performance:
1. External port: foul audio output, foul wireless output, RJ45 computer communication port, start signaling microphone port, electronic Starter Pistol port, electronic starting block port, external power supply port.
2. 8-inch touch screen with starting reaction time display, pressure curve display and start signal time display, accurate to <0.5ms.
3. Embedded thermal printer prints the reaction time and foul time of each group of athletes.
4. Microphone with: 3.5-inch stereo wired microphone, 3.5-inch stereo Bluetooth microphone.
5. Operating voltage: DC24V 3A, operating temperature: -25°C~55°C.

Electronic Starter Pistol

Model: TQW-D028
Specification: 150mm(L) × 90mm(W)×25mm(H)
Performance:
1. Aluminum alloy body, ultra high brightness neon light, daytime instantaneous illumination visual distance >200m.
2. 3.5mm microphone socket integrated on the body.
3. 3mm cable with 8-pole waterproof aviation plug.

Electronic Lap Host

Model: TQW-D020
Specification: 300mm×260mm×120mm
Performance:
1. 2.4G RF antenna, frequency 10% adjustable, maximum reading number 500 sheets/s.
2. Built-in battery, remaining power display, ID label display.
3. Anti-conflict function.
4. Data transmission: USB to RS485, operating voltage: DC12V 0.5A.
5. Operating temperature: -25 °C ~ 55 °C.

Three-Sided Lap Counter Display

Model: TQW-Y018
Specification: 560mm×560mm×400mm
Performance:
1. The bottom of the counter display is equipped with a copper bell.
2. Outdoor high-brightness LED digital counter.
3. Digital LED digits: 2 digits, Display direction: 3 sides, Display numbers: 0 - 99.
4. Control method: Control handle.
5. Working voltage: AC 220V - AC 240V 50Hz.
6. Working temperature: -25℃ ~ 55℃.

Track Event Dual Screen LED Display

Model: TQW-J025
Specification: Event Display: 1600mm×320mm×100mm
Result Display: 1600mm×340mm×100mm
Performance:
1. Event display: outdoor PH10 high brightness single color LED display, brightness >1200LXD; result display: outdoor high brightness 7 digit LED segment display.
2. Wireless communication, 433MHZ, distance ≥500m.
3. Operating voltage: AC220V±10%.
4. Operating temperature: -15℃~45℃.
5. Waterproof and dustproof, detachable, can be hung up or mounted on vehicle.
6. Operating temperature: -25℃~55℃.

Daylight 10,000-Meter Lap Counter

Model: TQW-B022

Triple Sided Wind Velocity LED Display

Model: TQW-S024
Specification: 900mm×900mm×750mm
Performance:
1. Triple sided high brightness LED display, waterproof and dustproof, mobile.
2. High Brightness LED segment display.
3. Output: RS485.
4. Data transmission: wireless RF200.
5. Working voltage: AC110-240V 50HZ.

Wireless Starting Signal Device

Model: TQW-W026
Specification: 220mm×200mm×180mm
Performance:
1. Manual and automatic voice starting signal.
2. OLED host status display.
3. Loud speaker and audio input, sound transmission distance ≤50m.
4. Operating voltage DC12V 7A, power supply 14.4V 0.5A.
5. Operating temperature: -25℃~55℃.

Ultrasonic Starting Signal Device

Model: TQW-C027
Specification: 120mm×80mm×80mm
Performance:
1. Wireless and portable, can also give starting signal through wire.
2. Ultrasonic sensor that reacts only to gun shot, dual sensors.
3. Wireless sensing distance on open field ≥500m.
4. Operating voltage: DC9V.

Foul Alarm Receiver

- Model: TQW-F030
- 1. Specification: 60mm×95mm×20mm
 - 2. Performance: Wireless, waist mounted, receives starting foul signal, high accuracy.

Electronic Lap Counting Host

- Model: TQW-D031
- Performance:
- 1. Ultra high reading and writing frequency, 500 people per second.
 - 2. Multiple antennas.
 - 3. RJ45 port, wireless data transmission.

Lap Controller

- Model: TQW-J032
- Performance:
- 1. Middle and long distance run lap controller, add and minus lap, reset.
 - 2. Cord length 5m.

Dual Screen LED Display Data Transmitter

- Model: TQW-S033
- Performance:
- 1. USB port, plug and play.
 - 2. Wireless frequency 433MHZ, wireless transmission distance ≥ 500m, wireless frequency ±10%adjustable.
 - 3. 1.2m USB cable.

Walky Talky

- Model: TQW22000007
- 1. Power: 8w, distance 3km
 - 2. Battery capacity: 3.7V/5800ma

Track Event Signal Cable

- Model: TQW-J035
- Performance: 14-pole data connection cable to each starting block junction box.

Electronic Lap Counter Module

- Model: TQW-D021
- Specification: 45mm×35mm×10mm
- Performance:
- 1. PVC material, anti-shock and durable, silicon wrist band, detachable back panel.
 - 2. Can be worn on wrist, ankle, singlet.
 - 3. Operating voltage: cr2030 battery.
 - 4. IP65.
 - 5. Storage: 25pcs per level, 4 levels per flight case.

Wireless receiveer

- Model: TQW-W034
- Performance:
- 1. Event: first display, high brightness PH10 single color LED, waterproof and dustproof.
 - 2. Game time and first place result: second display, high brightness LED segment display, waterproof and dustproof.
 - 3. Embedded track event wireless control card, 433MHZ wireless data transmission, wired data transmission availble, 1ms fast reaction, synchronized with high speed camera, accurate to 0.0001s.

Check-in Reader and Writer

- Model: TQW-J036
- Performance:
- 1. Wireless RFID chip timing and lap counter host, RS485 communication, multiple timing antenna port.
 - 2. Automatic lap counting and time for each athlete, highly anti-interference, good anti-chip conflict, 500 sheets per second reading frequency, adjustable accuracy.
 - 3. Unique anti-conflict labeling algorithm, eliminating the possibility of concurrent label conflicts.
 - 4. Operating voltage: AC220V 50HZ.
