TAISHAN SPORTS

WE BRING SPORTS ENJOYMENT TO THE WORLD

As a leader in China's sports equipment industry, Taishan Sports brings 47 years of expertise to markets at home and abroad. We offer turnkey solutions that span the full spectrum—from high quality sports equipment to professional services.

Our comprehensive product line covers everything from gymnastics and track & field to combat sports, various ball games, and parkour, serving a wide range of professional events. Our equipment has been put to the test at numerous top-level sports events, earning consistent praise from athletes and coaches. In parallel, we produce national fitness equipment and specialized sports mats, driving the development of public sports.

Driven by strong R&D capabilities, we continue to innovate. Our portfolio includes carbon fiber composite gymnastics equipment and XPE multifunctional sports mats, the latter having been recognized under the national "Torch Program". As a state-recognized Enterprise Technology Center, we hold multiple international certifications, including ISO standards and CE marking, ensuring our products meet the highest global requirements for environmental safety and quality. We also actively contribute to the development of international and domestic industry standards.

PROFESSIONAL TURNKEY SPORTS EVENT SOLUTION PROVIDER

Zero Complaints

Having provided products and services at more than 1000 top-level sports events in China and abroad, including 7 Olympic Games and 3 Youth Olympic Games, we are proud to have received zero complaints.

Zero Errors

As a professional turnkey sports event solution provider, we take our client's satisfaction seriously and will settle for nothing less than zero errors in everything we do.

Zero Failures

Our guarantee of zero failures in everything we deliver is what makes us a leading global sports brand.

COMPETITION JUDO TATAMI

TQ1520D (IJF Approved)

This IJF approved competition judo Tatami with moderate firmness bears CE marking and can be used at all major judo competitions.

Size: 18000 × 18000 × 50 mm (contest area: 10000 × 10000 mm)

Color: red, yellow

Structure: tatami vinyl fabric/RDS-23 compressed foam/fiberboard/RDS-20 compressed foam/non-slip base

TQ1601 (IJF Approved)

This IJF approved competition judo Tatami bears CE marking and can be used at all major judo events. It remains perfectly flat without warping, unaffected by changes in humidity or temperature. The core features a new elastic board which replace traditional fiberboard, and can provide optimal support and elasticity under pressure, delivering superior performance and maximum environmental friendliness. It is the ideal choice for major competitions and regions with significant humidity and temperature variations.

Size: 18000 × 18000 × 50 mm (contest area: 10000 × 10000 mm)

Structure: tatami vinyl fabric/RDS-23 compressed foam/elastic board/polymer micro-foam/non-slip base

TQ1602 (IJF Approved)

This IJF approved competition judo Tatami bears CE marking and can be used at all major judo events. It remains perfectly flat without warping, unaffected by changes in humidity or temperature. The infill is made from polymer micro-foam.

Size: 18000 × 18000 × 50 mm (contest area: 10000 × 10000 mm)

Structure: tatami vinyl fabric/polymer micro-foam/non-slip base

TRAINING JUDO TATAMI

TQ2511A

This judo Tatami is relatively soft. It can be used for training at clubs, schools, sports arenas.

Size: 14000 × 14000 × 40 mm

Structure: tatami vinyl fabric/ρ 180 compressed foam/fiberboard/ρ 180 compressed foam/non-slip base

TQ2511B

This judo Tatami is relatively hard. It can be used for training at clubs, schools, sports arenas.

Size: 14000 × 14000 × 40 mm

Structure: tatami vinyl fabric/ρ250 compressed foam/fiberboard/ρ230 compressed foam/non-slip base

TQ1603

This judo Tatami bears CE marking and can be used for training. Its appearance is perfectly flat without warping. The infill is made from polymer micro-foam.

Size: 14000 × 14000 × 40 mm

Structure: tatami vinyl fabric/polymer micro-foam/non-slip base

ROLL-UP JUDO TATAMI

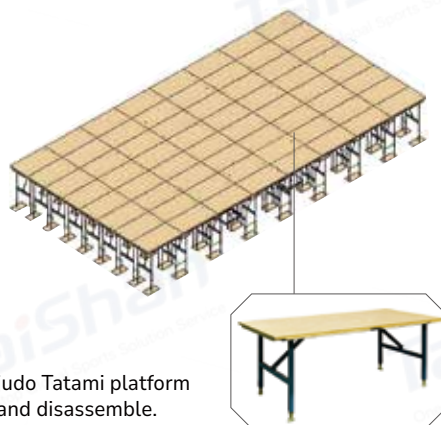

TQ2821

The innovative seamless hook-and-loop connections deliver an appearance with no gaps and free this judo Tatami from the need for a frame. The surface utilizes red and yellow PVC tatami fabric to distinguish the contest area from the safety area. The infill is made entirely from eco-friendly XPE foam. The adhesive-free, safe and eco-friendly heat bonding process results in a stable structure which provides excellent shock absorption, offering better protection for athletes. The non-slip base gives excellent traction and overall stability.

Size: 14000 × 14000 × 50 mm (customizable)

Color: red, yellow (customizable)

JUDO TATAMI PLATFORM

TQ1262A

Constructed from multiple platform units, this judo Tatami platform has an adjustable height and is easy to install and disassemble.

Size: 38000 × 22000 × 800 mm (customizable)

Material: premium welded steel tubes, multi-layer plywood

JUDOGI

TQW0188

This competition Judogi is woven using non-raised fabric. Each set includes a jacket, pants, a belt, and a drawstring. It fully complies with IJF's requirements for international competitions.

Type: competition

Size: 0#, 1#, 1.5# ... 4.5#, 5#

Color: white, blue

Material: 70% cotton, 30% polyester

Material weight: 700 - 750g/m²

TQW0188A

This Judogi is woven using non-raised fabric (≤1% shrinkage). Each set includes a jacket, pants, a belt, and a drawstring, and is suitable for training.

Type: training

Size: 0#, 1#, 1.5# ... 4.5#, 5#

Color: white, blue

Material: 35% cotton, 65% polyester

Material weight: 450g/m²

JUDO GRAPPLING BAG

Available in different materials and weights, this judo grappling bag features a wear-resistant surface and precision stitching. Filled with high-quality steel shot and crushed sponge, it offers outstanding elasticity and a long service life.

TAEKWONDO CHEST PROTECTOR

TSE1000

The EVA padding with a synthetic PU leather cover provides reliable protection.

Size: 1#, 2#, 3#, 4#, 5#

Material: premium PU

CURVED TAEKWONDO HAND GUARD TARGET

TSE1034

Made of polyethylene foam with a compressed sponge infill, it features excellent protection, comfortable wear, and quick shape recovery.

Size: 420 × 250 × 50 mm

Material: PU

HANDHELD TARGET

TSE1015

The surface is made of high-quality materials combined with premium filling, making it not only lightweight but also sturdy and durable. The design of the target body effectively enhances both the feel in hand and the impact sensation. The functionality, materials, design, and appearance of this product all reflect the hallmark of a professional brand. This target is ideal for daily training and essential for learning Taekwondo.

Size: 380 × 180 mm

Material: PU

CURVED TARGET PAD

TSA1017

The curved design, combined with a leatherette cover and EVA infill, ensures a full and plump shape for excellent striking performance.

Size: 650 × 450 × 100 mm

Material: PU

CHEST PAD

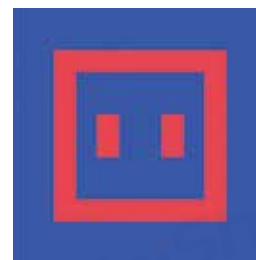

TSE1018

The leatherette cover and the EVA infill ensure a full and plump shape for excellent striking performance.

Size: 500 × 400 × 100 mm

Material: PU

COMPETITION KARATE MAT

TQ1565 (WKF Approved)

The mat consists of a contest area and a safety area, distinguished by two different colors. It offers a comfortable footing with moderate elasticity, and the tatami texture on the surface provides anti-slip properties, helping athletes perform at their best.

Size: 12000 × 12000 × 20 mm

Material: premium eco-friendly XPE

TQ1566A

The mat consists of a contest area and a safety area, surrounded by a border of edge padding, all distinguished by two different colors. It offers a comfortable underfoot feel with moderate elasticity. The diamond-patterned surface provides anti-slip properties, and by enhancing the surface texture, this product increases the overall friction, helping athletes perform at their best.

Size: 12000 × 12000 × 20 mm

Material: premium eco-friendly XPE

TRAINING KARATE MAT

TQ2711

The one-shot molded foam with interlocking puzzle edges makes the mat quick to install and offer moderate elasticity, meeting the requirements for both competition and training.

Size: 12000 × 12000 × 30 mm

Material: premium EVA

KARATE

COMBAT SERIES

A9

KARATE HEADGUARD

TSD1003

One-piece design for easy wearing and enhanced safety.

Size: S, M, L, XL, XXL

Material: NBR eco-friendly foam

COMPETITION BODY PROTECTOR

TSD1001

This is the latest style made of high-elastic rubber-plastic foam with hook-and-loop back closure for easy wearing.

Size: S, M, L, XL

Material: premium PU

KARATE GI

TSD1002

The fabric has excellent drape and is made from a blend of quick-dry fibers and cotton, allowing for rapid heat and moisture dissipation during intense exercise. The inner lining at the collar and cuffs not only feels great against the skin but also reduces cling to the body, enhancing freedom of movement.

Size: 1# - 5#

Material: 100% cotton

CURVED PUNCH MITT

TSA2000

Made of high-density compressed foam. The curved shape provides enhanced comfort.

Size: 200×250×50 mm

Material: PU

PUNCH MITT

TSA1022

Made of high-density EVA foam with PU leather surface. Comfortable to hold, sturdy and durable. Features excellent elasticity and lightweight durability.

Size: 200×250×50 mm

Material: PU

COMPETITION CHEST PROTECTOR

TQW22000009

Size: XS, S, M, L, XL

Color: white

GROIN PROTECTOR

TST1002A (men)

Features a molded infill for superior protection, comfort, and quick shape recovery.

Size: S, M, L, XL

Material: premium PU

TST1001A (women)

Features a molded infill for superior protection, comfort, and quick shape recovery.

Size: S, M, L, XL

Color: red, blue

Material: premium PU

KARATE GLOVES

TSD1009A / TSD1009B

The glove is crafted using a one-shot molding process with foam-molded infill and a synthetic PU leather exterior. Designed to protect the knuckles, it is equipped with high-tension elastic straps that ensure a secure fit and prevent slipping.

Size: S, M, L, XL

Material: PU

KARATE SHIN INSTEP GUARD

TSD2005

Featuring a foam-molded infill with an EVA protective plate and a synthetic PU leather exterior, this shin instep guard offers excellent protection, comfortable wear, and quick shape recovery.

Size: S, M, L, XL

Material: premium PU

KICK TARGET

TSA1030

Filled with environmentally friendly EVA that meets international standards. The surface is specially treated for anti-slip, shape retention, and wear resistance. Delivers a crisp, loud impact sound.

Size: Average size

Material: PU

CURVED KICK TARGET

TSA1026

It is made of tear-resistant, eco-friendly material. Impact area has been tested for durability. The multi-stitched, unique design ensures flexible use.

Size: 350 × 190 × 70 mm

Material: PU

BOXING

COMBAT SERIES

COMPETITION BOXING RING

TQ1251

This IBA approved boxing ring is stable and reliable. Built with a high-quality rectangular steel tube frame, it features a multi-layer plywood deck, a resilient layer, and a cover sheet. It has received consistent praise from professional boxers in many major competitions.

- ① The platform consists of uprights, support beams, and wooden panels. The frame and uprights are made of high-quality steel tubes, while the deck is constructed primarily from birch plywood. The platform utilizes a U-clamp connection system, ensuring firm and secure assembly with an aesthetically pleasing appearance.
- ② Provides comfortable footing and superior elasticity for optimal athletic performance.
- ③ Offers good slip resistance and high load-bearing capacity.
- ④ Designed for quick and convenient installation and removal.

Size: 7800 × 7800 × 2442 mm (platform height: 1000 mm, contest area: 6100 × 6100 mm)

Material: PU fabric, PVC woven fabric, foam, canvas, high-density foam, XPE, premium carbon steel, birch plywood

TRAINING BOXING RING

5m Boxing Ring

Model: TQ2252/2

Specifications: 5000×5000×1942 mm
(Platform height: 500mm)

Competition Area: 4100mm×4100mm

6m Boxing Ring

Model: TQ2252

Specifications: 6000×6000×2442 mm
(Platform height: 1000mm)

Competition Area: 5100mm×5100mm

7m Boxing Ring

Model: TQ2252/1

Specifications: 6000×6000×2442 mm
(Platform height: 1000mm)

Competition Area: 6100mm×6100mm

Material: PU, PVC warp knitted fabric, sponge, canvas, high-load bearing sponge, XPE, high-quality carbon structural steel, birch multilayer board, etc.

- ① The platform consists of uprights, support beams, and wooden panels. The frame and uprights are made of high-quality steel tubes, while the deck is constructed primarily from birch plywood. The platform utilizes a U-clamp connection system, ensuring firm and secure assembly with an aesthetically pleasing appearance.
- ② Provides comfortable footing and superior elasticity for optimal athletic performance.
- ③ Offers good slip resistance and high load-bearing capacity.
- ④ Designed for quick and convenient installation and removal.

FLOOR BOXING RING

5m Floor Boxing Ring

Model: TQ2309

Specification: 5000 × 5000 × 1482 mm
Competition Area: 4100mm × 4100mm

6m Floor Boxing Ring

Model: TQ2309/1

Specification: 6000 × 6000 × 1482 mm
Competition Area: 5100mm×5100mm

Material: PU cloth, sponge, high bearing sponge, XPE, high-quality carbon steel.

- ① Excellent protection performance with strong slip resistance. Durable and resistant to deformation. Uses eco-friendly materials with advanced manufacturing process.
- ② Made of premium materials with a modular frame for easy disassembly and flexible transport. The perimeter ropes are crafted from steel wire, foam tubing, and PU leather—sturdy and aesthetically pleasing.
- ③ All metal components are shot-blasted followed by powder coating using fully automatic electrostatic spray equipment. The coating offers excellent weather resistance, high impact strength, and consistent coating quality with outstanding resistance to acids, alkalis, moisture, heat, and aging.

COMPETITION HEAD GUARD (Leather)

TSA1001

Size: S, M, L, XL

Material: premium top-grain leather outer, inner core constructed from latex, EVA, and foam.

Breathable design of these gloves with adjustable crown can provide a perfect fit. The heavy-duty hook-and-loop closure is rated for 5,000+ cycles for long lasting durability and secure hold. The reinforced occipital padding ensures the best protection.

COMPETITION HEAD GUARD (PU)

TSA1001A

Size: S, M, L, XL

Material: premium PU outer, rubber foam inner core.

BOXING SINGLET

TSA2008

Properly designed cut and structure. Knitted fabric with moisture-wicking and breathable properties for excellent ventilation. Upgraded material texture ensures a snug, comfortable fit with unrestricted movement. Classic style available in gender-specific designs for men and women.

Size: S, M, L, XL, 2XL, 3XL, 4XL

Material: knitted fabric

TQW0889

Woven fabric with reathable and moisture-wicking properties can provide moderate elasticity. This is a high-end competitive model with gender-specific designs for men and women.

Size: S, M, L, XL, 2XL, 3XL, 4XL

Material: top: 100% polyester, waistband: 86% polyester, 14% spandex

COMPETITION BOXING GLOVES (Leather)

TSA1002-02 / TSA1002-03

Size: 10oz / 12oz

Material: premium top-grain leather outer, inner core constructed from latex, EVA, and foam.

These gloves can form a perfect curve for best protection when clenched. The pleats are neat and uniform. The heavy-duty hook-and-loop closure is rated for 5,000+ cycles. Thumb positioned close to glove body to effectively prevent injuries.

COMPETITION BOXING GLOVES (PU)

TSA1002A-01 / TSA1002A-02 / TSA1002A-03 / TSA1002A-04

Size: 8oz / 10oz / 12oz / 14oz

Material: premium PU outer, molded rubber foam inner core (one-piece molded construction)

BOXING SHOES

TSA2016

These boxing shoes have been fully upgraded for better sports experience. The fly knitting and fusion bonding upper provide seamless comfort and breathability. The flywire lacing system ensures a snug fit, minimizing energy loss from foot movement. Nano anti-odor and waterproof insole and lining keep feet dry and fresh. Outsole features wrestling shoe anti-slip compound for exceptional traction. All of these come in a brand new look.

Size: 36# – 45#

Material: fly-knit

MULTIFUNCTIONAL WALL TARGET

TSA1023

Featuring EVA padding and a steel frame construction, this target is ideal for practicing uppercuts, straight punches, and hooks.

Size: 700 × 400 × 300 mm

Material: PU

GROIN GUARD

TST1002 (Men)

Hard plastic cup with high-elastic foam padding. Heavy-duty elastic strap for a secure fit. Features enhanced protection for the lower abdominal area.

Size: S, M, L, XL

Material: premium PU

TST1001 (Women)

Hard plastic cup with high-elastic foam padding for bigger protection area. Heavy-duty elastic strap for a secure fit. Features enhanced protection for the lower abdominal area. Suitable for both training and competition.

Size: S, M, L, XL

Material: premium PU

TEARDROP BAG

TSA2005

Equipped with a special adapter. Made of high-elastic foam layer and rubber-coated fabric in the core.

Size: 900mm

Weight: 50kg

Material: premium PU

WRIST WRAP

TQW0183.01-01

Size: 4500× 57 mm

TQW0183.01-02

Size: 5000 × 50 mm

Material: 100% cotton

Breathable, soft, and comfortable, featuring a convenient nylon self-adhesive design for easy application. Provides enhanced protection against injury during combat sports and training.

PUNCHING BAG

TQ2543

Size: 50kg,
1300 × Φ400 mm

TQ2545

Size: 50kg,
1400 × Φ450 mm

TQ2542

Size: 50kg, 1200 × Φ350 mm

Cross-shaped hanger optional

Color: black / blue

Weight: 20kg - 100kg (customizable, adjustable in 5kg increments)

ROTARY MULTIFUNCTIONAL TRAINING STAND

TQ2291

This multi-functional training stand integrates four punching bags, a teardrop bag, a wall target, and a speed ball into a single compact unit. It takes a small footprint and requires no permanent installation. The punching bag can rotate with the upright for added versatility. Users can easily adjust the stand according to their training needs, offering exceptional flexibility. Ideal for indoor workouts, it effectively enhances muscle explosiveness and reaction speed.

Size: 3897 × 3897 × 2705 mm

Material: frame constructed from premium welded steel tubes

FLOOR TO CEILING SPEEDBALL

TSA2009

New design with a simple hook for easy installation. The high-elasticity cord delivers faster rebound speed, is wear-resistant, and prevents detachment. Suitable for both professional and amateur practice.

Size: 210 × 210 mm

Material: PU

MOUTHGUARD

TSA2017

Made from food-grade silicone, this mouthguard is eco-friendly and safe for use. It provides optimal protection for teeth upon impact and absorbs shock within the mouth.

Size: uni-size

Material: food-grade silicone

MULTIFUNCTIONAL TRAINING STAND

TQ2289

This multi-functional training stand integrates four punching bags, a teardrop bag, a wall target, and a speed ball into a single compact unit. With a small footprint and no permanent installation required, users can easily disassemble and adjust the stand according to their training needs, offering exceptional flexibility.

Size: 2736 × 2736 × 2600 mm

Material: frame constructed from premium welded steel tubes

COLUMN TUMBLER

TS4203B1-01 / TS4203B1-02

The base is made of solid cast iron with a rubber coating, which is noiseless and will not damage the floor. The base and the heavy bag are connected by a steel sleeve insert, making it suitable for dodging training.

Size: 80kg, 1700mm / 100kg, 1700mm

SPEEDBALL PLATFORM

TQ2288/1

Fixed to the wall, this platform features a sturdy steel frame and is equipped with a swivel which allows for speed training.

Size: 700 × 600 × 430 mm

Material: steel, birch plywood

HUMANOID TUMBLER

TS4204B1-01 / TS4204B1-02

The base is made of solid cast iron with a rubber coating, which is noiseless and will not damage the floor. The base and the heavy bag are connected by a steel sleeve insert to simulate even human swaying, making it suitable for dodging training.

Size: 80kg, 1800mm / 100kg, 1800mm

ADJUSTABLE SPEEDBALL PLATFORM

TQ2288

Easy to install, adjustable in height, and suitable for people of different heights.

Size: 835 × 600 × 710 mm (rail height)

Material: steel, birch plywood

CURVED TARGET PAD

TSA1017

The curved design, combined with a leatherette cover and EVA infill, ensures a full and plump shape for excellent striking performance.

Size: 650 × 450 × 100 mm

Material: PU

TARGET PAD

TSA1016

This new-style target offers greater flexibility and convenience for use.

Size: 450 × 250 × 100 mm

Material: PU

CURVED PUNCH MITT

TSA2000

Made of high-density compressed foam. The curved shape provides enhanced comfort.

Size: 200×250×50 mm

Material: PU

MULTIFUNCTIONAL BOXING TRAINING STAND

TSA1028A / TSA1028B

Effectively enhances key athletic abilities including reaction speed, movement fluidity, combination punching skills, and explosive power.

Size: 1000 × 1500 × 2200 mm

Material: floor-standing with steel plate / floor-standing

CURVED KICK TARGET

TSA1026

It is made of tear-resistant, eco-friendly material. Impact area has been tested for durability. The multi-stitched, unique design ensures flexible use.

Size: 350 × 190 × 70 mm

Material: PU

PUNCH MITT

TSA1022

Made of high-density EVA foam with PU leather surface. Comfortable to hold, sturdy and durable. Features excellent elasticity and lightweight durability.

Size: 200×250×50 mm

Material: PU

LENGTHENED PUNCH MITT

TSA1027

This new lengthened model features premium materials and a high-rebound EVA core.

Size: uni-size

Material: PU

CHALK TRAY

TQ2267

Holds chalk for athletes to apply it to the soles of their feet.

Size: 450 × 450 × 47 mm

Material: pine wood, birch plywood

TRAINING STICK TARGET

TSA1025

Made from one-piece molded elastic EVA with surface passed destructive testing. Features a hook-and-loop closure, a comfortable non-slip grip, and precision stitching for long-lasting durability.

Size: 560 × 60 mm

SKIPPING ROPE

TSA2003

Handle features a swivel and is coated in foam padding.

Size: 3000mm

Material: rubber

PROTECTIVE GEAR BAG

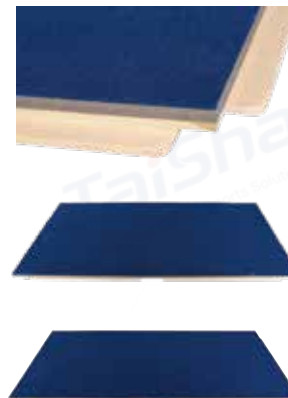

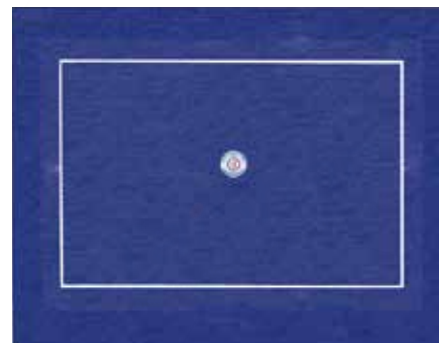

TSA2004

Spacious enough to hold various protective gear and training equipment. Drawstring design, fine quality, quick and convenient, an ideal backpack for training.

Material: high-density oxford fabric

WUSHU FIELD

TQ1516

Size: 12000 × 18000 × 90 mm (contest area: 8000 × 14000 mm)

Material: XPE, plywood, carpet

TQ2571

Size: 10000 × 16000 × 90 mm (contest area: 8000 × 14000 mm)

Material: XPE, plywood, carpet

Patented and IWUF approved. The surface carpet offers uniform color with no noticeable chromatic aberration, is static-free after friction, and shows no significant deformation under pressure.

WUSHU TAOLU

COMBAT SERIES

YOUTH WUSHU FIELD II

TQ2624/1

Consists of a water-cut roll-up flexible layer with seamless hoop-and-loops. The surface carpet offers uniform color with no noticeable chromatic aberration, is static-free after friction, and shows no significant deformation under pressure.

Size: 16000 × 10000 × 40 mm (boundary lines: 8000 × 14000 mm)

Carpet size: 10000 × 16000 mm

Material: XPE, carpet

TQW2624/6

The carpet is printed with the Chinese Wushu Association logo. The flexible layer is composed of five pieces, each featuring XPE material thermally bonded to the carpet. The pieces are connected with hook-and-loops, and the XPE bottom is knife-cut to allow each piece to be easily rolled up, stored, and transported. The carpet is attached also using hook-and-loops.

Size: 16000 × 10000 × 40 mm (boundary lines: 8000 × 14000 mm)

Padding layer size: 15000 × 9000 × 30 mm

Material: 30x XPE foam padding layer foam core, 4mm blue non-woven carpet

YOUTH WUSHU FIELD

TQ2624

Consists of a water-cut roll-up flexible layer with seamless hoop-and-loops. It is designed for easy rolling, convenient storage, quick installation and disassembly, and portability.

Size: 16000 × 10000 × 30 mm (boundary lines: 8000 × 14000 mm)

Material: XPE, carpet

YOUTH WUSHU FIELD I

TQW2624/5

Composed of six pieces with seamless hoop-and-loops that create an integrated surface, the venue features a knife-cut XPE base that allows each unit to be easily rolled up, stored, and transported.

Size: 16000 × 10000 × 30 mm (boundary lines: 8000 × 14000 mm)

Materials: 30x XPE foam core, 4mm blue non-woven carpet, 50mm white hook-and-loop fasteners for competition area delineation.

TUISHOU FIELD

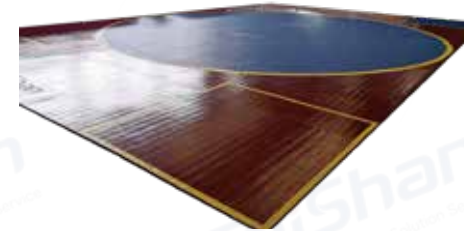

TQ1587

Assembled from seven pieces with seamless hook-and-loops. Each unit features a top layer of PVC leather flame-bonded to a bottom XPE layer, with a water-jet cut bottom.

Size: 12000 × 12000 × 30 mm

Material: vinyl bonded to XPE

XIANGZI JIAN (DUAN BING) FIELD

TQ1597

Assembled from seven pieces with seamless hook-and-loops. Each unit features a top layer of PVC leather flame-bonded to a bottom XPE layer, with a water-jet cut bottom.

Size: 12000 × 12000 × 15 mm

Material: vinyl bonded to XPE

COMPETITION QIANG (SPEAR)

TSH1012

Assembled from seven pieces with seamless hook-and-loops. Each unit features a top layer of PVC leather flame-bonded to a bottom XPE layer, with a water-jet cut bottom.

Size(mm): 1550, 1600, 1650, 1700, 1750, 1800

Material: high-density fiberglass, stainless steel

DUILIAN QIANG

TSH1012A

Used for training.

Size(mm): 1550, 1600, 1650, 1700, 1750, 1800

Material: one-piece aluminum alloy

DAO (BROADSWORD)

TSH1001

Used for Wushu Taolu Daoshu competition and training.

Size (men): M1, M2, M3, M4, M5, M6, M7, M8, M9

Size (women): F1, F2, F3, F4, F5, F6, F7, F8, F9

Material: manganese steel blade, stainless steel handle

JIAN (SWORD)

TSH1002

Used for Wushu Taolu Daoshu competition and training.

Size (men): M1, M2, M3, M4, M5, M6, M7, M8, M9

Size (women): F1, F2, F3, F4, F5, F6, F7, F8, F9

Material: manganese steel blade, stainless steel handle

DOUBLE SWORD**TSH1003**

Used for Wushu Taolu Sword competition and training.

Size(mm): 500, 520, 540, 560, 580, 600, 620, 640, 660, 680, 700

Material: spring steel blade, wooden handle

DOUBLE BROADSWORD**TSH1004**

Used for Wushu Taolu broadsword training and competition.

Size(mm): 500, 520, 540, 560, 580, 600, 620, 640, 660, 680, 700

Material: spring steel blade, wooden handle

**DOUBLE NANDAO
(SOUTHERN BROADSWORD)****TSH1008B**

Used for Wushu Taolu Daoshu training and competition.

Size(mm): 560, 580, 610, 640, 670, 700, 730, 760, 790

Material: aluminum alloy blade, wooden handle.

**TRAINING DAO
(BROADSWORD)****TSH1005**

Used for Wushu Taolu Daoshu competition and training.

Size(mm): 560, 580, 600, 620, 640, 660, 680, 700, 720, 740, 760, 780, 800

Material: manganese steel blade, wooden handle

TRAINING JIAN (SWORD)**TSH1006**

Used for Wushu Taolu Jianshu training.

Size(mm): 560, 580, 600, 620, 640, 660, 680, 700, 720, 740, 760, 780, 800

Material: manganese steel blade, wooden handle

**CHUNQIU DAO
(BROADSWORD)****TSH1007**

Used for Wushu Taolu training and competition.

Size(mm): 1600, 1650, 1700, 1750, 1800

Material: aluminum alloy

**NANDAO
(SOUTHERN BROADSWORD)****TSH1008**

Used for Wushu Taolu Nandao competition and training.

Size(mm): 560, 580, 600, 620, 640, 660, 680, 700, 720, 740, 760

Material: manganese steel blade

GUN (CUDGEL)**TSH1009**

Used for competition.

Size (men): 1550mm, 1600mm, 1650mm, 1700mm, 1750mm, 1800mm

Size (women): 1500mm, 1550mm, 1600mm, 1650mm, 1700mm

Material: fiberglass

**DUILIAN DOUBLE
BROADSWORD****TSH1010**

Used for training.

Size: 480mm, 500mm

Material: aluminum alloy

PODAO**TSH1011**

Used for Wushu Taolu Daoshu competition and training.

Size(mm): 1550, 1600, 1650, 1700, 1750, 1800

Size: 1200 × 500 × 1000 mm
Material: premium birch plywood

CHALK STAND WITH CASTERS

TQ2268

Adjustable height, with wheel, easy to move.
Size: 454×460× (850-1050) mm
Material: premium metal tubing, fiberglass box

CHALK STAND

TQW0049

For magnesium powder
Size: 900mm
Material: ainted iron base, fiberglass box

SANDA

COMBAT SERIES

SANDA TRAINING MAT

TQ2572 (IWUF Approved)

Used for competitions and training

Size: 8000 × 8000 × 60 mm

Cover material: space PU leather, PVC woven fabric

Padding layer material: PVC woven fabric, XPE

Mat sleeve material: textured, washable PVC (anti-slip)

Inner core material: XPE

ROLL-UP STRUCTURE

TQW1618

Size: 8000 × 8000 × 50 mm

TQW1618/2

Size: 8000 × 8000 × 40 mm

Surface material: blue embossed PVC (leather texture)

Padding layer material: 30x XPE foam

SANDA HEAD GUARD

TQC1003A / TQC1003B

Molded in one piece from rubber-plastic foam, with a thickened back-of-head area and an adjustable head circumference, this product offers the best protection.

Size: S, M, L, XL, XXL

Material: microfiber / PU

SANDA PLATFORM

TQ1272

The platform features a frame made of premium rectangular steel tubes, topped with multi-layer plywood, a flexible layer, and a top cover. Shock-absorbing pads are attached to the underside of the plywood for stable and reliable performance. Protective padding is installed around the four sides of the platform.

The frame is a modular steel tube structure assembled with standard fasteners and finished with powder coating. It is topped with 25mm thick sound-deadened plywood.

The flexible layer consists of 30x XPE mats (2m × 1m) covered on both sides with red loop fabric.

The top cover is made of space leather, offering non-slip properties and easy cleaning.

*Base mats not included *

Size: 8000 × 8000 × 800 mm

SANDA SHIN GUARD

TQC2007

Made of high-elastic foam. Lightweight, durable, and highly impact-resistant.

Size: S, M, L, XL, XXL

Material: premium PU

SHIN INSTEP GUARDS

TQC2006

High elastic foaming system, light and durable, strong anti-attack ability.

Size: uni-size

Material: premium PU

SANDA CHEST PROTECTOR

MEN

TQC1001A1 / TQC1001A2

New material, light weight, good protection effect.

Size: S, M, L, XL, XXL
Material: microfiber / PU

GROIN GUARD

TST1001 (WOMEN)

Hard plastic cup with high-elastic foam padding for bigger protection area. Heavy-duty elastic strap for a secure fit. Features enhanced protection for the lower abdominal area. Suitable for both training and competition.

Size: S, M, L, XL
Material: premium PU

TST1002 (Men)

Hard plastic cup with high-elastic foam padding. Heavy-duty elastic strap for a secure fit. Features enhanced protection for the lower abdominal area.

Size: S, M, L, XL
Material: premium PU

MOUTHGUARD

TSA2017

Made from food-grade silicone, this mouthguard is eco-friendly and safe for use. It provides optimal protection for teeth upon impact and absorbs shock within the mouth.

Size: uni-size
Material: food-grade silicone

MULTIFUNCTIONAL WALL TARGET

TSA1023

Size: 700 × 400 × 300 mm
Material: PU

Featuring EVA padding and a steel frame construction, this target is ideal for practicing uppercuts, straight punches, and hooks.

WRIST WRAP

TQW0183.01-01

Size: 4500 × 57 mm

TQW0183.01-02

Size: 5000 × 50 mm

Material: 100% cotton
Breathable, soft, and comfortable, featuring a convenient nylon self-adhesive design for easy application. Provides enhanced protection against injury during combat sports and training.

PROTECTIVE GEAR BAG

TSA2004

Spacious enough to hold various protective gear and training equipment. Drawstring design, fine quality, quick and convenient, an ideal backpack for training.

Material: high-density oxford fabric

SANDA UNIFORM SET WITH SHORTS FOR WOMEN

Color: Red/blue

SANDA UNIFORM

TQW0890

This is a high-end competition model made of woven fabric with moderate elasticity, breathable and moisture-wicking.

Sizes: S/M/L/XL/2XL/3XL/4XL

Material: 100% polyester, Waistband: 86% polyester + 14% spandex. Perspiration color fastness ≥ Grade 4, Washing color fastness ≥ Grade 4, Pilling Resistance ≥ Grade 4.

TQC1004

Featuring an embroidered IWUF logo, this basic model is made of knitted fabric that is moisture-wicking and highly breathable.

Sizes: S/M/L/XL/2XL/3XL/4XL

Material: Knit fabric

CURVED TARGET PAD

TSA1017

The curved design, combined with a leatherette cover and EVA infill, ensures a full and plump shape for excellent striking performance.

Size: 650 × 450 × 100 mm

Material: PU

CURVED PUNCH MITT

TSA2000

Made of high-density compressed foam. The curved shape provides enhanced comfort.

Size: 200 × 250 × 50 mm

Material: PU

CURVED KICK TARGET

TSA1026

It is made of tear-resistant, eco-friendly material. Impact area has been tested for durability. The multi-stitched, unique design ensures flexible use.

Size: 350 × 190 × 70 mm

Material: PU

Model: TQW0891

This is a high-end competition model made of woven fabric with moderate elasticity, breathable and moisture-wicking.

Sizes: S/M/L/XL/2XL/3XL/4XL

Material: 100% polyester, Waistband: 86% polyester + 14% spandex. Perspiration color fastness ≥ Grade 4, Washing color fastness ≥ Grade 4, Pilling Resistance ≥ Grade 4.

Model: TQW0892

PROTECTIVE SHIELD TARGET

TSA1030

Constructed from tear-resistant, eco-friendly PU and tested to withstand over 20,000 impacts. Four-layer reinforced handle with hand-stitched sides. The stitching ensures a uniform fit with the inner bladder, effectively extending the service life.

Size: 350 × 350 × 150 mm
Material: PU

WAIST TARGET

TSA1027

Made of high-density EVA and recycled cotton for effective shock absorption and comfortable fit. The hook-and-loop fastener allows for size adjustment and easy wearing.

Size: uni-size
Material: PU

TARGET

TSA1022

Made of high-density EVA foam with PU leather surface. Comfortable to hold, sturdy and durable. Features excellent elasticity and lightweight durability.

Size: 200×250×50 mm
Material: PU

LENGTHENED PUNCH MITT

TSA1027

This new lengthened model features premium materials and a high-rebound EVA core.

Size: uni-size
Material: PU

KICK TARGET

TSA1030

Filled with environmentally friendly EVA that meets international standards. The surface is specially treated for anti-slip, shape retention, and wear resistance. Delivers a crisp, loud impact sound.

Size: Average size
Material: PU

TRAINING STICK TARGET

TSA1025

Made from one-piece molded elastic EVA with surface passed destructive testing. Features a hook-and-loop closure, a comfortable non-slip grip, and precision stitching for long-lasting durability.

Size: 560 × 60 mm

ROTARY MULTIFUNCTIONAL TRAINING STAND

TQ2291

This multi-functional training stand integrates four punching bags, a teardrop bag, a wall target, and a speed ball into a single compact unit. It takes a small footprint and requires no permanent installation. The punching bag can rotate with the upright for added versatility. Users can easily adjust the stand according to their training needs, offering exceptional flexibility. Ideal for indoor workouts, it effectively enhances muscle explosiveness and reaction speed.

Size: 3897 × 3897 × 2705 mm
Material: frame constructed from premium welded steel tubes

MULTIFUNCTIONAL TRAINING STAND

TQ2289

This multi-functional training stand integrates four punching bags, a teardrop bag, a wall target, and a speed ball into a single compact unit. With a small footprint and no permanent installation required, users can easily disassemble and adjust the stand according to their training needs, offering exceptional flexibility.

Size: 2736 × 2736 × 2600 mm
Material: frame constructed from premium welded steel tubes

COLUMN TUMBLER

TS4203B1-01 / TS4203B1-02

The base is made of solid cast iron with a rubber coating, which is noiseless and will not damage the floor. The base and the heavy bag are connected by a steel sleeve insert, making it suitable for dodging training.

Size: 80kg, 1700mm / 100kg, 1700mm

SANDA CARD STAND

TQC2011

SANDA PUNCHING BAG

TSSD2001

Features stronger iron chains and a 360° swivel for multi-directional striking. Made of high-density tear-resistant leather with a reinforced inner lining. The inner bladder is filled with rebound cotton and cloth strips, providing a good striking feel.

Length: 60 – 180cm
Max diameter: 45cm
Material: leather

BODY OPPONENT BAG

TS4203B1-01 / TS4203B1-02

Easy to install. Features rubber suction cups on the bottom for enhanced stability. The thickened, wear-resistant natural rubber outer layer delivers a good striking feel.

Size: 1750 × 600 mm
Material: rubber

WEIGHTLIFTING PLATFORM

Custom sizes available. Mainly includes guardrails, carpet, enclosures, stairs, and other accessories. Additional accessories can be added as requested.

TQ1252A (competition)

Size: 12000 × 10000 × 800 mm
Material: premium welded steel tubes, multi-layer plywood

TQ1252A/1 (training type)

Size: 10000 × 10000 × 800 mm
Material: premium welded steel tubes, multi-layer plywood

BARBELL RACK

TQ2262

Modular design allows for easy disassembly and assembly, quick packaging, and fast transport.

Size: 2000 × 2400 × 2500 mm
Material: premium metal tubing, natural rubber mat

COMPETITION BARBELL

Different weights are color-coded.

TQW0225 (men)

Size: 190kg
Material: premium spring steel, natural and synthetic rubber
Color: various for different weights

TQW0226 (women)

Size: 185kg
Material: premium spring steel, natural and synthetic rubber
Color: various for different weights

COMPETITION BAR

Anti-slip knurled surface with chrome plating.

TQW0228.01 (men)

Size: 20kg
Material: premium high-strength spring steel

TQW0228.03 (women)

Size: 15kg
Material: premium high-strength spring steel

TRAINING BARBELL

TQW0227 (men)

Size: 190kg

Color: black

Training Barbell Pole

Anti-slip knurled surface with chrome plating.

TQW0228.02 (men)

Size: 20kg
Material: premium spring steel

TQW0228.04 (women)

Size: 15kg
Material: premium spring steel

PAPER TUBE FOR BAR

TQW22000012

PLATE RACK

TQ2254

Composed of a box body and rods. Simple structure, easy assembly, and overall stability.

Size: 1900 × 536 × 430 mm
Material: premium metal tubing, sheet metal

PLYO BOX

TQW0233A

Size: 300mm (2 levels)

TQW0233B

Size: 400mm (3 levels)
Material: ash wood / rubber

BARBELL COLLAR

TQW22000011

Weight: 2.5 × 2 kg

WEIGHTLIFTING SHOES

TQW0221

Size: 37# – 45#
Color: gray, white

WEIGHTLIFTING PLATFORM

TQW0366

The specially treated wooden surface is anti-slip. Constructed from wooden boards connected with double-end screws, which forms a unified whole.

Size: 4000 × 4000 × 80 mm
Material: ash wood

TRAINING WEIGHTLIFTING PLATFORM WITH COLORED RUBBER

This product can be embedded into wooden flooring or fixed to the ground with an iron frame.

TQ2283/7B

Size: 3000×3000×30 mm

TQ2283/8B

Size: 3000×3000×40 mm

TQ2283/2B

Size: 3000 × 3000 × 50 mm

TQ2283/1B

Size: 3000 × 3000 × 80 mm
Material: colored rubber

NEW TYPE TRAINING WEIGHTLIFTING PLATFORM

The center and four corners of this product are made of wood with a specially treated anti-slip surface. The areas where the barbell lands are rubber plates.

TQW0366/1

Size: 3000 × 3000 × 50 mm

TQW0366/2

Size: 3000 × 3000 × 80 mm

Material: ash wood

TRAINING WEIGHTLIFTING PLATFORM WITH COLORED RUBBER

This product can be embedded into wooden flooring or fixed to the ground with an iron frame.

TQW0223/5B

Size: 3000 × 3000 × 50 mm

TQW0223/8B

Size: 3000 × 3000 × 80 mm

Material: ash wood, colored rubber (customizable)

WEIGHTLIFTING SINGLET

Men

Women

TQW0219

Different designs and cuts for men and women.

Size: S, M, L, XL, 2XL, 3XL, 4XL, 5XL

Material: 80% nylon, 20% spandex

Men

Women

TQW0888

Different designs and cuts for men and women.

Size: S, M, L, XL, 2XL, 3XL, 4XL, 5XL

Color: blue / red

Material: 82% polyester, 18% spandex (Lycra)

Material weight: 210g/m2

WEIGHT LOSS SAUNA SUIT

TQW0054

This sauna suit is a great choice for athletes or individuals with obesity to lose weight.

Size: S, M, L, XL, 2XL, 3XL, 4XL

Color: black, silver

Material: PU knit transfer film (non-breathable)

WEIGHTED VEST

Double-layer inner bag prevents leakage. Ideal for weight training to enhance explosive power.

TQW0357-01 Weight: 5kg

TQW0357-02 Weight: 10kg

TQW0357-03 Weight: 20kg

Material: oxford fabric

BARBELL JACK

TQ2293

Ideal tool for lifting barbell during weightlifting competitions and training to change plates.

Size: 1035 × 1230 × 751 mm

Material: premium metal tubing, nylon wheels

BAR RACK

TQ2260

Integrated structure - high stability and easy to move.

Size: 1160 × 820 × 1210mm

Material: premium metal tubing

BARBELL PLATE TROLLEY

TQ2261

Welded from round tubes, oval tubes, and round steel. Comes with a chalk box.

Size: 1442 × 600 × 1165 mm

Material: premium metal tubing, fiberglass

SQUAT RACK WITH CASTERS

TQ2263/1

This adjustable-height rack features casters and is constructed from a welded steel tube frame with wooden blocks. It is easy to move and suitable for professional weightlifting training, as well as for gym and home use.

Size: 565 × 455 × (900 to 1260) mm (adjustable)
Material: premium metal tubing, ash wood, rubber

SQUAT RACK WITH CASTERS

TQ2251A

This flat bench press rack consists of a welded steel tube frame and a padded surface. Suitable for professional weightlifting training.

Size: 1800 × 1180 × 1288 mm
Material: premium metal tubing, PU fabric, compressed foam, multi-layer plywood

JERK RACK

TQ2296/1

Designed for professional weightlifting training, primarily for squat and jerk exercises. The base can also hold plates.

Size: 1300 × 600 × 940 mm
Material: premium metal tubing, rubber mat

LOW BARBELL RACK

TQ2284A

Suitable for strength and flexibility training.

Size: 500 × 395 × 447 mm
Material: premium metal tubing, ash wood, rubber

CHALK TRAY

TQ2267

Holds chalk for athletes to apply it to the soles of their feet.

Size: 450 × 450 × 47 mm
Material: pine wood, birch plywood

BENCH ROW RACK

TQ2264A

This adjustable-height bench row rack is for strengthening the muscles of the waist and abdomen, as well as improving flexibility. Can be used as an auxiliary tool for competition training.

Size: 1828 × 470 × (798 to 1048) mm (adjustable)
Material: premium metal tubing, PU fabric, compressed foam, multi-layer plywood

INVERSION TABLE

TQ2266

The ankle area features a gear-like structure for easy adjustment. It helps relieve physical fatigue, improve balance, promote cerebral blood circulation, and enhance memory. Can be used as an auxiliary training tool.

Size: 1300 × 860 × 1914 mm
Material: premium metal tubing, foam, PU fabric

FOLDING MASSAGE BED

TQW0376

Easy folding and storage

Size: 1860 × 600 × (480 to 720) mm
Headrest length: 270mm
Armrest width: 100mm
Material: eco-friendly PVC leather, high-density foam, high-strength aluminum alloy frame

COTTON LIFTING STRAPS

TQW0249

Material: Made of pure cotton cloth

LEATHER LIFTING STRAPS

TQW0249/1

Material: High quality cowhide

CHALK STAND WITH CASTERS

TQ2268

Adjustable height, with wheel, easy to move.

Size: 454×460× (850-1050) mm

Material: premium metal tubing, fiberglass box

CHALK STAND

TQW0049

For magnesium powder

Size: 900mm

Material: ainted iron base, fiberglass box

LEATHER WRIST BRACES

TQW0900

WRIST BRACES

TQW0360

WEIGHTLIFTING BELT

TQW0220

Size: 900 to 1300 mm

Material: top-grain leather

TQW0220/1

ELECTROPLATING PLATE DUMBBELLS

TQW0361

The handle is machined from round steel. The plates are cast from pure iron.

Size: 10, 15, 20, 25, 30, 35, 40 kg

RUBBER COATED PLATE DUMBBELLS

TQW0362

The handle is machined from round steel. The plates are made from eco-friendly neoprene rubber using dip coating process.

RUBBER COATED HEX DUMBBELLS

TQW0362/2

Size: 2.5, 5, 7.5, 10, 12.5, 15 ... 40, 42.5, 45, 47.5, 50kg (2.5kg increments)

RUBBER COATED ROUND DUMBBELLS

TQW0363

Size: 2.5, 5, 7.5, 10, 12.5, 15 ... 40, 42.5, 45, 47.5, 50kg (2.5kg increments)

Material: PU rubber coating

POWDER COATED KETTLEBELL

TQW0224

Size: 2, 8, 12, 16, 20, 24, 28, 32kg

Material: cast iron, enamel finish

RUBBER COATED DUMBBELLS

TQW0362/1

Size: 1 to 10 kg (1kg increments)

Material: hex matte coated dumbbell

RUBBER COATED KETTLEBELL

TQW0364

Size: 2, 8, 12, 16, 20, 24, 28, 32kg
